ISSUE  
NUMBER 5

UP-FIDDLE, a pig born without hind feet, gets around walking on his forelegs. He has become a barn yard pet of Dr. A. N. Boyd family of Houston, and will not go to market with the rest of the litter that was born at the same time.

You don't need a bank-full  
Of cash to be thankful.  
Be thankful you have what you do.  
Don't envy your neighbors.

The fruits of their labors,  
Your fortune rests solely with you.

Here's cause for thanksgiving:  
The fact that you're living  
Where freedom of enterprise  
reigns.  
Where all can aspire  
To what they desire;  
Each welcome to what he attains.

If you have what's needed  
You can't be impeded  
By limits on courage and skill.  
No blessing is greater,  
So thank your Creator  
And ask for His guidance and will.

One point to remember  
In June or November,  
Or when you feel thankfulness  
most:

There's no earthly power  
Can dictate the hour  
Or how you give thanks to your  
Host.

HAVE YOU ever wondered  
why the turkey looks bald  
and seems to have blisters on his  
head?

There is an old legend among  
the Indians of North America,  
the original home of the turkey,  
that tells the reason. The legend  
says that at the beginning of one  
winter the fires of the world had  
all been extinguished except one  
tiny spark in the hollow of a tree.  
And this tiny spark was dying.  
It would have gone out if the  
turkey hadn't kept it alive by  
fanning it with his wings. As the  
heat increased, all the feathers  
were singed off his head, but he  
kept on fanning—and so gave fire  
back to the world.

So the turkey's bald head and  
blisters are really a badge of  
honor.

## Save on Your Reading Bill . . .

For the first time in several  
years The Hamlin Herald is  
making reductions on mail sub-  
scription combinations with the  
daily papers of the territory  
and with magazines.

You can save money on next  
year's reading by letting The  
Herald handle your daily news-  
paper and magazine subscrip-  
tions.

## Hamlin Herald Your Home Town Paper

REV. EDMUND W. ROBB,  
pastor of the First Methodist Church, who was program  
chairman for last Wednesday's  
Rotary Club program, declared as  
he presented his fellow pastor of the  
First Baptist Church, that when Calvin Bailey first made an  
attempt at preaching he was dis-  
couraged a little by a fellow who heard  
his first sermon.

"Calvin," the listener is reported  
to have asked him, "whatever  
gave you the idea that you should  
become a preacher?"

"Well, I'll tell you, fellow, while  
I was out in the field working one  
day I saw the letters 'G. P. C.' in  
the sky and I felt it meant 'Go  
Preach Christ!'"

"That may have been where you  
were misled, Calvin," said the  
man. "It could have meant 'Go  
Plow Corn,' you know."

THANKSGIVING is a won-  
derful period of the year  
which brings thoughts of gratitude  
that would not be inappropriate  
all through the year. Some poet  
has put it this way—

You don't need a bank-full  
Of cash to be thankful.  
Be thankful you have what you do.

Don't envy your neighbors.

The fruits of their labors,

Your fortune rests solely with you.

Here's cause for thanksgiving:  
The fact that you're living  
Where freedom of enterprise  
reigns.

Where all can aspire

To what they desire;

Each welcome to what he attains.

If you have what's needed  
You can't be impeded  
By limits on courage and skill.

No blessing is greater,

So thank your Creator

And ask for His guidance and will.

One point to remember  
In June or November.

Or when you feel thankfulness

most:

There's no earthly power

Can dictate the hour

Or how you give thanks to your

Host.

## Outstanding 4-H Members and Adult Workers Get Awards in Anson Rites

Over 100 awards were made at  
the local observance of National  
4-H Club Achievement Day Monday  
night in the Anson High  
School auditorium, according to  
Mary Y. Newberry, home demon-  
stration agent, and Bill Lehmburg,  
county agent.

Congressman Omar Burleson  
was guest speaker for the program  
and he presented awards to the  
4-H Club girls and boys and junior  
leaders who had done outstanding  
work in the various Jones  
County 4-H Clubs.

Fern Hodge, District III agent,  
presented awards to 10 women  
adult 4-H leaders, and Ted Tewes,  
agronomist of A. & M. College,  
presented awards to nine men  
adult 4-H leaders.

Special Farm Bureau awards to  
4-H Club members were presented  
by Harris Wright, service agent of  
the Jones County Farm Bureau.

Birger Haterius of Erickson,  
chairman of the Jones County 4-H  
committee, presented five awards  
given for the first time to news  
media supporting 4-H Club work.

These special awards went to: Ed  
Sprawles of The Western Observer  
at Anson, Roy Craig of The  
Stamford American, Willard Jones  
of The Hamlin Herald, Phil Keen-  
er of Radio Station KDWT, and  
Bob Cooke and Duane Howell,  
of the Jones County Farm Bureau.

the management.

## THANKSGIVING IS NOT A DAY—IT'S IN THE HEART

When apprehension fills our hearts, it is  
well to draw on the faith handed down to us  
by the Pilgrim forefathers. What must have  
filled the thoughts of that little group in the  
spring of 1621 when the Mayflower returned,  
leaving them alone on the shores of a new  
world with nothing but self reliance and a  
sturdy trust in God to sustain them.

Our Thanksgiving Day commemorates the  
harvest celebration of that first grim year—a  
harvest that rewarded workers who were  
building a new nation. Within the space of  
a little more than 300 years America has become  
the land of hope for every freedom loving  
nation on the globe.

We are thankful that we have not lost our  
capacity for thanksgiving—thanksgiving for  
the abundance of everything we have in  
America—thanksgiving for friends and many  
of the world's joys and pleasures.

No doubt many of us think of the day pri-  
marily as a day of feasting, when members of  
the family get together for a visit, and then  
take the stuffed turkey and cranberry sauce  
and mince pie and do a lot of stuffing of our  
own stomachs. These family gatherings are

good, and the eating is all right, too—but  
those folks who originally established the day  
had much more in mind when they were  
prompted to set aside a day of thanksgiving.

Those Pilgrims had come from England in  
order to gain some freedoms which they could  
not have in their native land. They had many  
trials and tribulations, hardships and discour-  
agements. With meager implements and poor  
farming methods, but with a zeal and courage  
unmatched even on battlefields, they planted  
and raised crops. And God smiled on their  
efforts, and rewarded them with good harvests  
—no doubt nothing to compare with the  
harvests that modern farming methods would  
have brought—but they were thankful.

Thus was Thanksgiving Day established as  
a period of expressing gratitude to the Maker  
for his blessings in preserving the Pilgrims'  
lives and giving them a good harvest.

Today, without the pestilences of so many  
diseases, with all the modern conveniences of  
living, and without the necessity of working  
like slaves for a livelihood . . . how much  
more we all should make every day one of  
Thanksgiving!

## Observe School Bus Law

There is a continuing need for safety edu-  
cation among the motorists of Texas, declares  
J. W. Edgar, commissioner of education, after  
he reviewed several weeks of operation of  
the new Texas law requiring all vehicles to  
stop when approaching a school bus loading  
or unloading children.

There were two more fatalities during 1956-  
57 than were reported to the Department of  
Public Safety in 1955-56. The total number of  
accidents reported declined, however, from  
379 to 335. (During the past year the highway  
department erected signs on all major roads  
warning motorists of the safety measure).

The law says in effect, that upon meeting  
or overtaking a school bus which has stopped  
on the highway for the purpose of receiving  
or discharging children, the driver of any  
vehicle shall stop immediately before passing.  
After coming to a stop the driver of the vehicle  
can proceed with due caution at a speed  
which is prudent and does not exceed 10 miles  
per hour. The law does not apply within city  
limits.

Vehicles are not required to stop on high-  
ways with separate roadways when the bus  
is on a different roadway from that of a passing  
vehicle. Vehicles are not required to stop  
if the school bus is stopped in a loading zone  
which is a part of or adjacent to a controlled  
access highway and where pedestrians are  
not permitted to cross the roadway.

All public school buses are painted yellow  
and have "School Bus" painted in large letters  
on the front and rear of each bus. They are  
equipped with flasher lights usually mounted  
high on the front and rear of the bus. These  
flashing lights are used only when the bus  
is in the process of stopping or is stopped to  
receive or discharge children.

## Victor Over Worry

Life, after all, contains only one great prob-  
lem—that of so adjusting yourself to the in-  
evitable that you can keep your peace of  
mind and your self-respect. The great victory  
of life is the conquest of worry. The greatest  
discovery a man can make is how to escape  
envy and hate.—Douglas Freeman.

## Editorial of the Week

## IKE, SAM AND LYNDON

When one political party has charge of the  
executive department and another controls the  
legislative, it is sometimes difficult to fix re-  
sponsibility and act decisively in an emer-  
gency.

President Eisenhower and the country may  
count it a blessing that, in this sputnik missile  
crisis the top men in the Democratic controlled  
Congress are Speaker Sam Rayburn and Sen-  
ate Leader Lyndon Johnson.

Sam and Lyndon are enthusiastic party men  
and in normal times enjoy politics in their love  
of the game. But both men are several cuts  
too high in good sense and patriotism to play  
politics in a situation that may damage the  
nation. And they have so demonstrated since  
this crisis arose.

Speaker Rayburn, instead of blaming the  
administration and Republicans for our trou-  
bles, pointed up present dangers and called  
on the president to show strong leadership in  
laying down "a firm and serviceable program  
for defense," and promising, "without fear of  
contradiction, he will have the support of the  
Democrats of the House."

Leader Johnson, as chairman of the Senate  
preparedness sub-committee, set the tone for  
the missile satellite investigation, saying: "The  
question of who is to blame is far less import-  
ant than the question of what is to be done."

The two Texans have thus aligned the loyal  
opposition in the finest patriotic tradition. They  
have made it manifest they will not use their  
congressional power to usurp or interfere with  
executive authority. Rather they have made  
it clear they want to enlist Congress as an  
active partner with the executive in overcom-  
ing our country's hazardous vulnerability in  
defense.

They have, wisely and apparently purpose-  
fully, left the initiative with the president—an  
initiative the president can retain to the de-  
gree he provides leadership.—The Fort Worth  
Press.

Music in the best sense does not require  
novelty, nay, the older it is, and the more  
we are accustomed to it, the greater its  
effect.—Goethe.

RECALLING  
Other Years

Being news items taken  
from old files of Your  
Home Town Newspaper,  
The Herald.

## THIRTY YEARS AGO.

News of interest in the Hamlin  
community of 30 years ago includ-  
ed the following, reproduced from  
the issue of The Hamlin Herald  
dated November 25, 1927:

Bryant-Link Grocery advertised  
two loaves of bread for 15 cents,  
bucket of coffee for \$1.32, eight  
pounds of lard for \$1.23.

Mrs. L. T. Cox was hostess to  
members of the Tuesday club at  
her home Tuesday afternoon. At-  
tendents were Mrs. H. O. Cas-  
sile, Billy Bryant, Bowen Pope,  
D. O. Sauls, B. W. Nobles, Russell  
Boyd, T. E. Harden, J. V. Milsap,  
J. W. Hodges, Paul Friend, and  
Misses Ella Temple and Pearl  
Whitely.

Mrs. O. K. Wilson, with Mr. and  
Mrs. W. W. Nowlin and daughter,  
Louise, of Stamford, visited in  
Fort Worth, Corsicana and Dallas  
first of the week.

Printed as news in the Hamlin  
newspaper 20 years ago were the  
following items, taken from the  
issue of The Hamlin Herald dated  
November 26, 1937:

Richard Feagan, a student at  
Southern Methodist University in  
Dallas, is home to spend the  
Thanksgiving with his parents, Mr.  
and Mrs. Elmer Feagan.

Pat Albritton and Hermona  
Shadie entertained a group of  
friends Friday evening with a  
scavenger hunt party. Those at-  
tending were Katherine Adkins,  
Pauline Harrell, Doris Pope, Elva  
Greenway, Geneva Albritton, Mar-  
garet Row, Ann Hudson, Irene  
Thompson, Ruby Thompson, Mrs.  
Alpha Shands and Frances Eddie  
Beck of Rotan, Thomas S. Ferguson,  
Forest Greenway, Kurt Schoen-  
mann, Arlie Cassie, John D. Fer-  
guson, Delma Shelburne, David  
Crockett, Weldon Johnson, B. L.  
Jones, Bill Norris, Austin Poe,  
George Kinney of Stamford, and  
H. F. Grindstaff of Rotan.

Grady Smith and Pete Bond  
and Ruby Mayfield and Mavis  
Smith visited Mr. and Mrs. Bill  
Hall at Pampa Sunday.

AMONG ITEMS OF INTEREST IN THE  
AREA 10 YEARS AGO WERE THE FOLLOW-  
ING NEWS BRIEFS, TAKEN FROM THE  
ISSUE OF THE HAMILIN HERALD DATED  
NOVEMBER 28, 1947:

A football game featuring former  
Army and Navy men, is on  
schedule for December 6. On the  
Army line-up will be D. W. Carlton,  
Glen Winsted, J. R. Elliott,  
J. E. Johnson, Dean Witt, Harold  
Wheat, Joe Sam Gray, Sam Holt,  
Doby Johnson, J. B. Terrell, L. B.  
Petty, Runt McCoy and Jake Weir  
with Ottie Huling as water boy.  
On the Navy line-up will be Lee  
Hastings, Glenn Adair, Joe King,  
S. C. Ferguson Jr., Bill Harbert,  
Bobby Barrow, Larry McCoy, Dick  
Branscum, J. L. Blanton, Dick  
Lowe, Lee Carter, Jack Kelly and  
Raymond Elkins with Clinton  
Packwood as water boy.

Hamlin Pied Pipers dropped the  
last game on their football slate  
to Haskell by a 20 to 0 score last  
Friday night to end their district  
season in the cellar with six losses  
and one tie.

Considered news in the Hamlin  
community five years ago were the  
items below, reprinted from  
the issue of The Hamlin Herald  
November 28, 1952:

Engineer Rubie Harmon of the  
Santa Fe passenger train that was  
involved in a car-train collision at  
Hamlin Sunday morning that killed  
Jean Pugh, 24-year-old Stamford  
telephone operator, declared that  
the girl saw the train but was  
traveling so fast she could not  
stop in time to avoid the collision.

Mr. and Mrs. J. H. Morton, farm  
couple living south of Hamlin, were  
killed about 7:00 o'clock Tuesday  
morning between Breckenridge  
and Palo Pinto on Highway 180  
when their car was in collision  
with another auto.

Plans for the Christmas Festi-  
val at Hamlin on December 5 are  
shaping up nicely.

## ONE YEAR AGO.

Happenings in the territory a  
year ago included the following,  
reprinted from the issue of The  
Hamlin Herald dated October 25,  
1956:

Work on the new \$150,000 gym-  
nasium and band practice rooms  
has about been completed, and  
formal opening and open house for  
the structure is set Sunday after-  
noon, according to Superintendent  
of Schools C. F. Cook.

Offerings taken last Wednesday  
evening at the union Thanksgiving  
service at the First Methodist  
Church will be used to aid trans-  
ients, say officials of the Hamlin  
Ministerial Alliance, sponsor of  
annual union services.

Strong Market on Calves Featured at  
Fort Worth First of Week, Says Gouldy

Trade at Fort Worth Monday  
featured a very active and strong  
market on calves, declares Ted  
Gouldy, special market reporter  
for The Herald, in his weekly  
summary. His release continues:  
Both slaughter and stocker in-  
terests were active in the trade.  
Fat calves of the choice variety  
have been increasingly scarce in  
the runs, and some sales in this  
category are unevenly higher  
again.

All kinds of stockers and feed-  
ers were fully steady and bulls  
again sold at the advances of last  
week.

Trade on cows was rather slow  
as most packer interests tried to  
lower costs on the early rounds.  
However, the clearances were at  
generally steady prices. Fed cattle  
were relatively scarce, and  
some interests were talking 50  
cents lower prices in view of the  
big run in the Corn Belt points.  
However, quality considered, there  
was little change in the market.

Comparative prices: Good and  
choice slaughter steers and year-  
lings brought \$20 to \$22.50, high  
choice or prime quoted well over  
that bracket. Common and me-  
dium sorts sold from \$14 to \$20.  
Fat cows cashed at \$14 to \$15.50,  
and cullers and cutters cashed at  
\$9 to \$14. Bulls returned \$12 to  
\$16.50. Good and choice slay-  
ers.

At times during the past year  
these imports had a depressing  
effect on the market for boning

types of livestock in the trade at  
Fort Worth.

The small (1,400 head) receipts  
reported in the sheep yards at  
Fort Worth Monday included  
about 500 goats. The trade was  
active and strong, quality consid-  
ered, and good and choice fat  
lambs sold from \$21 to \$22. Fancy  
types were lacking. Stocker and  
feeder lambs of just medium and  
good kinds sold from \$18 to \$21.  
A few slaughter ewes sold at \$9.

The goats again continued to  
make a lot of news as this new  
"outlet" was again very good.  
Slaughter goats sold from \$6 to  
\$7.50, and stocker kinds would be  
quotable well above that range.  
The trade in goats is relatively  
new at Fort Worth, but with a  
number of packers interested in  
getting goats here, it has followed  
that buyers seeking stocker have  
come in to pick off any youngish  
ones.

National packers are expected  
to step into the trade and allocate  
definite periods to goat slaughter

on the basis of the numbers now  
coming here to market.

Under federal rules goats and  
sheep cannot be killed together,  
and the change-over involved with  
the national packers is a big fac-  
tor in the development of the

Butcher hogs managed to hold  
steady at Fort Worth Monday  
with the top \$17.50 to \$17.75, and  
medium to good butchers at \$16  
to \$17.25.

The packing sows, which for  
long have been selling right up  
against the top butchers, took a  
tumble. A few choice lightweights  
sold steady at \$16.50 to \$17, but  
the rank and file packer sows  
sold from \$15 to \$16, and some  
of the heavier in the \$15 to \$15.50  
level were about \$1 off.

**SAFER DRIVING NOW.**  
Motorists are driving safer this  
year than last, the National Safety  
Council says. In 1956, 40,000 per-  
sons died in auto accidents. This  
year the toll may drop to 38,000.

**Many Students May Get Tax Return for Part-Time Pay Deduct**

A lot of folks will argue with you on how good the "good old days" were, but not many folks will argue that times haven't changed, observes Tax Man Sam in a release to The Herald.

A lot of boys and girls in high schools and colleges work no part-time jobs and especially summer jobs. These students had income tax withheld from their wages but not did make over \$600 in many cases. Fortunately, the law provides for dad to claim them as an exemption as well as allowing the student an exemption for himself on his own income tax return, providing dad furnished chief support (more than 50 per cent) for Junior.

It will pay the students to look up their Form W-2 statement of income tax withheld and be ready to file their income tax return on January 1. The sooner they file the sooner they will get a refund of the income taxes withheld from their wages last summer.

**Precautions by Motorists May Keep Pedestrians from Being Dead Wrong**

"The pedestrian may be wrong, but he doesn't deserve a death sentence." Thus, a safety warning was given drivers this week by J. O. Musick, general manager of the Texas Safety Association, who spoke in behalf of TSA's current pedestrian protection program.

"Our high pedestrian fatality rate is an indictment of the selfish attitude displayed by many drivers," Musick said. "Of course, pedestrians often invite disaster by their careless actions, but this doesn't excuse auto drivers from blame."

About one in four traffic fatalities involves a pedestrian, according to National Safety Council statistics. During 1956, 7,950 pedestrians were killed.

Musick said the fact that cars generally weigh well over 3,000 pounds, while the average man weighs around 160 pounds, should convince any driver that he needs to take extra precautions to protect pedestrians.

Musick listed the following rules as musts for drivers who want to discharge their responsibilities to pedestrians in traffic:

1. Stop at cross-walks for pedestrians.
2. When stopped at a cross-walk stay behind the line until signals change.

3. When signals do change, don't charge impatiently forward—give the walker a chance to get safely to the curb.

4. Be sure cross-walks are clear before turning corners.

5. Be extra cautious when approaching blind intersections or lines of parked cars.

6. In cities where "walk" and "wait" signals are used, do not drive into cross-walk until the pedestrian's "wait" signal is flashed—then proceed carefully.

7. Always keep a sharp eye out for children and elderly people; their movements are frequently unpredictable.

**Tax Home Is Where One Works, Says Sam**

A lot of folks who work at one place and live at another have trouble with internal revenue over where home is, observes Tax Man Sam in a release to The Herald.

A man who has voted in Wise County during all of his adult 50 years is rather surprised to find out that his tax home is in Fort Worth when he has a full time permanent job in Fort Worth.

Generally speaking, for taxpaying purposes and especially for computing travel expense, your tax home is where you work, not where mom and the kids stay.

**Grace for Thanksgiving Day**

We thank Thee, Father, for Thy love  
That gathers us in sweet accord  
To count our blessings and enjoy  
The bounty of our gracious Lord.

We see our harvest-mellow land  
Round out another peaceful year,  
Assuring all men, everywhere,  
Those joys of life that are more dear  
Than daily bread: home, love, work, friends;  
The blessed right to speak and pray  
As each one wills. God keep us strong  
To follow on our chosen way!

Help us to look beyond the feast  
To sharing with our fellowmen  
All these Thy boundless gifts. And last,  
Be Thou our Unseen Guest.

Amen.

—MAUREEN MURDOCH

**Deadlines for Entry Of Livestock Set by Fort Worth Show**

Deadlines for entry of cattle, sheep, swine, horses, poultry, pigeons and rabbits in the 1958 Southwestern Exposition and Fat Stock Show at Fort Worth have been announced.

Potential exhibitors of cattle, sheep and swine must have their entry blanks postmarked by December 15. Horse show entries must be postmarked January 1, and poultry, rabbits and pigeons by January 10.

The Fort Worth show, scheduled January 24 through February 2, is offering cash awards totaling \$188,374 for livestock and horse exhibitors and rodeo contestants.

Seven breeds of beef breeding cattle—Herefords, Polled Herefords, Aberdeen-Angus, Brahmans, Shorthorns, Santa Gertrudis and Brangus—have been allotted \$45,180 of the premium total.

First U. S. cotton mill was built in Massachusetts in 1803.

## New Ceramic Tiles Offer Decoration Possibilities with Many Variations

Some of the nation's finest artists have hitched their drawing boards to ceramic tile. Why? To meet a demand created for tiles suitable to American decor.

Many artisans have relied on old patterns found across the seas, perhaps from Egyptian burial vaults are the tile splendor found in palaces or paved streets for use in American homes. But this new distinguished designer series produces tiles that are typically American.

The traveled from India, Turkey, Algiers, Morocco, Holland, Spain, Italy, leaving its imprint

Baptist Women Meet In Circles Groups for Mission Book Study

Members of the Woman's Misionary Society of the First Baptist Church met in circles Monday afternoon for a study of the mission book, "A Continent in Motion."

At the meetings plans were made for Thanksgiving baskets for several families.

The Littleton Circle met with Mrs. Johnie Agnew, and Mrs. Edgar Duncan taught the lesson. The Lockett Circle met with Mrs. George Campbell, with Mrs. Bill Shira teaching the lesson. The Lois Glass Circle met with Mrs. E. B. Watson, the lesson being led by Mrs. J. O. Murphree.

The Mae Davis Circle met with Mrs. J. C. Greenway, and Mrs. Cecil Sellers taught the lesson. The Nannie David Circle met with Mrs. M. H. Castleberry, with Mrs. Vernon Sharer teaching the lesson.

C. P. Amersons to Be Feted at Anniversary Open House Sunday

Open house, honoring Mr. and Mrs. C. P. Amerson on their golden wedding anniversary, is being hosted by their daughter and son-in-law, Mr. and Mrs. John C. Bryant, on Sunday, December 1.

The open house event will be held at the Amerson home, east of Hamlin, between 2:00 and 5:00 p.m.

The Amersons have spent most of their 50 years of married life in Jones County, where they are widely known. No formal invitations are being mailed in the county, but all friends and relatives are invited to attend. The couple ask that no gifts be sent.

McCobb has done a series that is ideally dramatic to a stairway, or at the barbecue, and their contemporary decoration belies the fact that tiles are really, after all, more than 6,000 years old.

Laszlo enlivens the kitchen wall with a decorative design that is a series of colorful pots and pans in red, green, black and grey on a background of pegboard, all on ceramic tile.

If you decide to decorate with tiles, keep these pointers in mind: Choose tiles that are compatible to room furnishings.

Be sure colors are those you can live with no matter how you change the room decor.

The tile pattern must be quietly displayed, not splashed in an arrogant display. It must be pleasing to the eye. These tiles may be placed dramatically, not necessarily in a symmetrical pattern.

### PREVENT STICKING.

Canned cream corn won't stick to the bottom of the pan if you first melt a pat of butter or margarine in the bottom of the pan. Add the corn and heat slowly. The corn will not stick to the pan even if it isn't stirred.

Plenty of Favorite Foods for Holiday on Plentiful Foods List

Plenty of most of the traditional holiday foods insure homemakers that there will be no shortages when their shopping begins for the foods normally used during the holiday season.

The U. S. Department of Agriculture's December plentiful foods list for the Southwest shows frying and broiling chickens as feature items, while turkey and pork are other protein suggestions. Supplies are large on these main course favorites.

The old favorite, cranberries, will be abundant in December as will apples and winter pears. Adequate supplies of oranges and grapefruit should also be available, says the report issued by John J. Slaughter, Southwest food distribution chef.

December plentiful vegetables include peas, canned and frozen, and dry blackeyed peas. Pinto beans, too, are on the list.

Dates, almonds and filberts complete the December plentiful listings.

## Simplified FHA Regulations May Aid Prospective Home Builder Get Started

Aspirations of prospective home builders in the Hamlin area and elsewhere to build new homes are given new hope through the prospect of more lenient FHA standards.

Capping more than 20 years of conflict and confusion, the Federal Housing Administration (FHA) is finally writing a new national "bible" on minimum home building requirements. It is expected to be completed by January 1, 1958.

Experts say the new standards may save the building industry millions of dollars and have a far-reaching effect on residential construction in the next decade.

For the home buyer, it may mean better houses at less money and far greater flexibility in experimenting with modern or "revolutionary" architectural techniques.

"If a man has a good idea for building a house, no matter how novel it may be, we will consider it under the new program," said William J. O'Connor, deputy director of the FHA's architectural standards division.

Under the old standards, he indicated, the FHA might have been automatically required to reject proposed innovations which it now plans at least to consider.

One expected result will be to allow builders a lot more leeway in originality of design while still maintaining high standards of quality and durability to protect the home buyer.

O'Connor said the FHA is working closely with the building industry on the new "bible." Written jointly by the FHA and a special advisory task force, the proposed new standards, if adopted, will entirely replace the FHA's old "five-foot bookshelf" comprising 23 separate volumes on the subject of minimum property standards (mps).

Following its creation under the National Housing Act of 1934, the FHA at one time had 54 different standards, each covering a few states or regional offices. These were eventually whittled down to the present 23.

Then came the great post-World War II building boom, paced by an upsurge of mass community building developments as millions of apartment house "cliff dwellers" rushed to the suburbs and the outlying countryside.

As a result, O'Connor said, builders often found they were caught in a briar-patch tangle of conflicting regulations as newly built communities spread across state lines into areas where an entirely different set of rules applied.

A residential construction in one state might win FHA approval with flying colors, for example, while an identical structure would run into all kinds of hot water in an adjoining state.

Large scale makers of prefabricated houses found it particularly difficult to comply with the conflicting regulations then in effect.

The upshot, said O'Connor, was that all hands agreed the FHA should set up a nation-wide set of requirements, couched in simple terms, to eliminate the chaotic conditions of the past. The agency and its task force have spent two years working up the new standards.

The FHA's minimum property standards, O'Connor explained, have nothing to do with local building codes. The FHA's prime interest deals with marketability and mortgage risks.

"As far as the buyer is concerned, what we are striving for is greater flexibility in design and cost savings which will permit lower prices for housing," O'Connor said. However, he warned that some costs may be higher because of the new specifications.

Most of the proposed changes are so technical in nature as to be mere jargon to the average layman, but a few are reasonably understandable. These include:

A proposal to junk the old requirement that bedrooms must have a minimum area. Under the new set-up, instead of having four minimum size bedrooms, the builder could have two king size bedrooms and two small rooms or one master bedroom for husband and wife and three medium size rooms for the kids.

The new standards would also permit lighter concrete mixes that might save up to \$30 a house, and would allow the use of new insulating material (such as fiber glass) which could save up to \$50 per house.

On the other hand, they revised regulations call for an increase in the size of septic tanks from 500 to 750 gallons in some areas. An FHA spokesman says this might cost the builder an additional \$10 or so.

Dorcas Class Meets In W. L. Boyd Home For Special Dinner

Members of the Dorcas Sunday School Class of the First Baptist Church met in the home of Mrs. W. L. Boyd for their pre-Thanksgiving dinner.

Following an opening prayer led by Mrs. Etta Stephenson, a visitor from McCaulley, the group enjoyed the dinner.

The class group voted to fill a basket for the needy for the Thanksgiving season.

After a song and prayer led by Mrs. W. E. Rogers, a devotional was brought by Mrs. Connie O'Neal. Several members gave impromptu talks on Thanksgiving, and the closing prayer was offered by Mrs. M. P. May.

Attendants at the dinner included Mrs. Mary Avant, Mattie Albritton, Mattie Bruner, Zella Davis, Laura Brown, Mattie Dutton, Effie Herring, Lela Harbert, Lila Moore, Emma May, Pearl Milstead, Pearl Matthews, Jonnie Johnson, Connie O'Neal, and Lillie Rogers, members; and a visitor, Mrs. Etta Stephenson; and the hostess, Mrs. Annie Boyd.

W. V. Waltons Have Dinner for Relatives

A pre-Thanksgiving dinner was given in the home of Mr. and Mrs. W. V. Walton Sunday for a number of guests.

Attending the happy meeting and feast were W. L. Walton, Billie Walton, Mr. and Mrs. John E. Walton, Stan and Joyce Ann of Lubbock, Mr. and Mrs. W. D. Stahl and Walton of Levelland, Mr. and Mrs. Riley Matchett and Nettie Bowen of Hamlin.

### HUBBARDS HAVE GUESTS.

Mrs. J. M. Hubbard and daughter had as their guests Sunday Mr. and Mrs. C. B. Hubbard of Ozona, Mr. and Mrs. J. A. Edington and daughter, Sue and Mr. and Mrs. W. C. McHann of Abilene.

and wife and three medium size rooms for the kids.

The new standards would also permit lighter concrete mixes that might save up to \$30 a house, and would allow the use of new insulating material (such as fiber glass) which could save up to \$50 per house.

On the other hand, they revised regulations call for an increase in the size of septic tanks from 500 to 750 gallons in some areas. An FHA spokesman says this might cost the builder an additional \$10 or so.

Good Grooming Is Friendship Club Topic

Mrs. Jimmy Simmons, home-making instructor at Hamlin High School, gave the program on "Good Grooming" when members of the Friendship Home Demonstration Club met Friday afternoon at the oil mill guest house.

Correct posture and selection of the most becoming colors were discussed, as was proper make-up.

Members present were Mrs. Jack Collins, John Hix, Fred Carpenter, S. E. Branscum and Gean Witt. Guests from the Neinda club were Mrs. James Brown, Elmer Joiner and Sam Hodges.

Zuna Camp Fire Girls Have Three Sessions

Members of the Zuna group of Camp Fire Girls have held three meetings during the month, according to the reporter for the group.

Rain did not spoil the day November 7 because the girls had fun passing beads. They had experiments in frontier craft and in creative arts presented a play.

At the November 14 meeting the girls enjoyed the refreshments served by Mrs. Ray Johnson. Then the girls made Christmas cards.

On November 21 Mrs. Weldon Johnson served refreshments to the Camp Fire Girls. The girls then made Christmas gifts which will be given in secret.

Earth is the third planet in order of distance from the sun.

# State Capitol NEWS

By Vern Sanford, Manager,

Texas Press Association.

Austin.—Texas lawmakers are driving hard to go for a new tool or dealing with police powers, insofar as school segregation and integration problems are concerned.

Proposed as a "last resort" law to be used, presumably, in situations where threat of federally enforced integration is met by strong local opposition. It would allow the school board to shut down the school until "the earliest possible time when peace and order can be maintained without the use or occupation by military forces."

Governor Price Daniel's call also asked that the law provide 1) that state aid, accreditation, salaries, etc. not be affected by closing; (2) that school board may transfer local pupils; and 3) that the attorney general be authorized to assist local school districts in contesting integration suits in federal court.

Though legislative operations winds down over the week-end, both House and Senate decided against a "crash" program to enact the bill overnight. Strong opposition was not foreseen, however.

**Fiscal Hangover.**—Lawmakers who return for the next regular session in January, 1958, face a "morning after" atmosphere with a \$12,000,000 headache.

Las summer State Comptroller Robert S. Calvert predicted the state would end this two-year period with a \$6,000,000 deficit. His latest estimate doubles that figure.

Calvert revised his figures after voters this month approved a constitutional amendment upping state pension payments.

Legislators already are skating on the edge of financial embarrassment in their day-to-day operation. Fund for their salaries, expenses, etc. was down to about 45,000 when the first session ended. With costs running about 11,000 a day, they were due to start drawing this week on the governor's deficiency fund, earmarked for "calamities."

But the real calamity, as many legislators see it, comes year after year when they will have to find a way to glue the "busted" budget together again. Most agree gloomily that it means new taxes.

**No "Thrill," But.**—Legislators' comments on the laws passed during the first special session ranged from "monstrosity" to a shoulder shrugging "better than nothing."

But they did pass—all five that the governor asked.

Spokesman for the governor admitted he wasn't exactly "thrilled" with the watered-down water bill, but that he would accept it. In a public statement Governor Daniel commended the lawmakers for their accomplishments.

Briefly, the new laws do this: 1. Set up a water planning division to do research on Texas water resources and report to each regular session. No authority to draw up a state-wide plan was conferred, and the appropriation was cut from a recommended \$1,200,000 to \$900,000. Water Board was given

## KERRY DRAKE

### Annie Oakley to Be Stock Show Feature

Gail Davis, television's Annie Oakley, will be featured in rodeo performances at the 1958 Southwestern Exposition and Fat Stock Show at Fort Worth January 24 through February 2.

Without an administrative head the department cannot conduct even routine business; nor can it pay its employees. Members of the Texas Insurance Board asked Attorney General Will Wilson for guidance.

Under the constitution the Senate has the authority to pass on all appointments made by the governor to constitutional offices. It does not, however, pass on the appointments of various state boards within their departments.

Senate approved the governor's appointments to the board, but turned thumbs down on Harrison.

A former assistant state auditor, Harrison had been serving in the \$20,000-a-year post since early last summer.

Board members asked Wilson's opinion on (1) Does the Senate have the constitutional authority to pass on a board appointment; and (2) if so, what will we do until we can find a new commissioner?

"No Urgency."—Insurance Department is being beset by the Senate from another quarter as the investigation into a delayed report continues.

Senate committee questioned two department officials on why three months elapsed between receipt of an unfavorable report on Preferred Life of Dallas and department action on the matter.

Paul D. Connor, assistant commissioner, said he saw "no urgency" in the report since it did not involve insolvency. E. B. Kelley, chief examiner, said he did not think there was "anything significant" about it.

Earlier, the man who made the examination said he had found evidence of illegal stock manipulation involving some \$994,000.

**Cotton Rained Out.**—Untimely rains probably have cost Texas cotton farmers some \$100,000,000, says Agriculture Commissioner John White.

Rain kept harvesters out of the fields, said White, and greatly cut the quality of the cotton still on the stalks. "It's a real economic blow to many farmers who had prospects of the first good cotton crop in several years," White observed.

**Short Snows.**—Senator William T. Moore of Bryan is president pro tempore of the Senate for the second called session. He succeeds Senator Seary Bracewell of Houston. . . . One of the things for which Texans can be thankful this year is that there will be only one Thanksgiving. Governor Daniel proclaimed the Texas holiday for November 28, same as the federal holiday. . . . Governor Daniel has asked President Eisenhower for emergency federal aid for Jefferson, Bell, Orange and Fayette Counties, recently hit by floods and tornadoes. . . . A Senate passed bill clears the way for getting land for a Texas Employment Commission building just north of the capitol. Bill would increase the site buying appropriation from \$350,000 to \$1,100,000. Probable location now is occupied by a Lutheran Church.

**PRACTICAL ADVICE.**  
A farmer was losing his temper trying to drive two mules into a field when the minister came by. "Say, Reverend," the farmer said, "you're just the man I want to see. Tell me, how did Noah get these into the ark?"

### NO EVIDENCE WANTED.

The woman motorist, on her way home from Europe, posed for a souvenir snapshot of the fallen pillars of an historic ruin in old Greece.

"Don't get the ear in the picture," she said. "My husband will swear I ran into the place!"

The blond miss, who is an expert marksman with a gun, has been playing Annie Oakley ever since the show went on television almost four years ago. She is a former student of the University of Texas, where she was on of the school's famed "Blue Bonnet Belles." That's where she met Gene Autry, West-

ern movie and television hero. Impressed with her dramatic ability, he told her to call him if she ever got to Hollywood. She did.

Miss Davis later made 15 motion pictures and 30 television films with the famous cowboy star.

### December 1-7 Slated Beef Week in Texas

Governor Price Daniel has proclaimed December 1-7 the fourth annual Beef Week in Texas.

"The cattle industry has made consistent and substantial contributions toward the basic welfare and health of Texas and Texans," the proclamation read in part.

Local celebrations to pay tribute to the 416-year-old industry are being planned in more than 200 Texas communities, Texas Beef Council officials said.

Rubber bands at The Herald.

### CLOTHES MAKE THE MAN.

A meek little man in a restaurant timidly touched the arm of a man putting on an overcoat.

"Excuse me," he said, "but do you happen to be Mr. Smith of Newport?"

"No, I'm not!" the man said impatiently.

"Oh, er, well," stammered the first man, "you see, I am, and that's his overcoat you're putting on."

### THE FINAL RESULT.

A camel is an animal that looks as though it had been put together by a committee.

## Roger W. Babson Discusses New Home And Fashion Trends as Money Holds

The automobile is not only revolutionizing highways, retailing and financing, but also the style of buildings and homes, observes Roger W. Babson, analyst and economist, in his weekly release to The Herald. He continues:

Simple arithmetic will prove that with narrow streets in the older cities, one of three things will happen: (1) The 50-year-old brick buildings will be torn down and replaced by modern one-story buildings; or (2) the streets will be widened; or (3) all stores will be open evenings. New shopping centers are otherwise inevitable.

Another example of simple mathematics: People can borrow only so much money. This limit is fast being reached. If families are to have one or two larger automobiles, these families must be satisfied with smaller and fewer rooms in their homes. As autos become larger and more expensive, homes must become smaller and less expensive. I therefore forecast that many of my readers will turn their present houses into apartments.

All new homes will not have garages; but all will have enough land so that the family cars can be kept off the streets. The new style of architecture will be based on the Old Cape Cod house of one and one-half stories, or else people will live in duplex or cooperative apartments. People gave up their "horse and buggy" when they bought an automobile. They will learn to give up their present style of homes. Putting more money into the automobile may result in putting less money into the home. This will especially be true if we are facing either war or disarmament.

The future home will have no "dining room," and the orthodox "parlor" is definitely doomed. Weddings, funerals and receptions will be held outside the home in places which have proper parking space. There will be one large "living room" in which the family will live, cook and eat. There will be no "kitchen." With frozen foods and infra-red cooking, only a few minutes will be needed to prepare a meal. From such cooking there will be no mess or odor.

Every house will, however, have two bathrooms—one for the parents, who will sleep on the first floor; one for the children, who will sleep on the second floor. Typical bath-tubs of the present day will be seen only in museums. Bedrooms will be much smaller, comparing more with the staterooms on ocean liners or on deluxe trains. Heating and air conditioning will be much cheaper and more common. Both hot and cold air will come into the houses through underground pipes as gas and water now come. Electricity will be very much cheaper. "Bottled gas" will be used more.

Clothes can be much cheaper. Cloth will no longer be woven as cloth is today. Cloth will be made like paper cellophane. This unwoven new "synthetic cloth" will come out of a machine as finished dresses for the women and children, or as finished suits for the men. Some women readers will say, "Impossible, women will insist on wearing different dresses and hats." These, of course, can differ in color, but women will then be satisfied with standard clothes. The automobile will standardize clothing. There will be a few different makes of clothes at different price ranges. Auto dealers and gas stations may carry clothing.

Yes, revolutionary changes to be caused by the automobile have just commenced. Far greater changes are ahead. As "drive-in theaters" are following the indoor theaters so "drive-in schools" and "drive-in churches" will follow. Banks are now taking many of their deposits direct from customers who drive up in automobiles.

to a special window. Store show windows, which have been a fruitful source of advertising for their merchants, will become of less value as more people pass in autos. More duplex and cooperative apartment houses are coming. Renting automobiles will largely take the place of buying them. This same may apply to furniture and even clothes. This will especially be true if our nation is facing either war or disarmament due to the threat of Russian fall-out.

I think a man and woman should choose each other for life, for the simple reason that a long life with all its accidents is barely enough for a man and a woman to understand each other; and to understand is to love.—J. B. Yeats.

### Capital Additions to Homes Affect Taxes

Most folks never keep a record of how much money they invest in capital additions to their home, reminds Tax Man Sam in a release to The Herald. They plan on spending their life in their home.

The way folks move around nowadays, though, makes it profitable for most of them to keep an exact record of how much their house and everything they add to it cost them. This includes the lawn, the back room and the tool shed they added to the garage.

If they have to move, they are always able to figure out if they have a gain or a loss on their house. Nobody likes to pay tax simply because he didn't keep a record and doesn't know how much something cost him.

Prayer is not eloquence but earnestness—Hannah Moore.

### Freight Carloadings For Santa Fe Decline

Freight carloadings for the Santa Fe Railway for the week ending November 16, 1957, were 23,852 compared with 25,286 cars for the same week in 1956, reflecting a continuing decline from the totals of a year ago. Cars received from connections totaled 11,155 compared with 12,901 for the same week in 1956.

Total cars moved were 35,007 compared with 38,187 for the same week in 1956. Santa Fe handled a total of 36,544 cars in the preceding week of this year.

The Herald has carbon paper.

### JUST HIS LUCK.

A beggar appeared at the door of a boy's dormitory. A student opened the door and heard the unfortunate one's plea.

"Has not Fortune ever knocked at your door?" asked the student. "He did once," replied the beggar, "but I was out. Ever since he sent his daughter."

"His daughter!" exclaimed the puzzled student. "Who is she?"

"Why, can it be possible that you do not know Fortune's daughter?" answered the beggar in surprise. "It's Miss Fortune, of course."

No man is happy who does not think himself so.

### OVERWORKED.

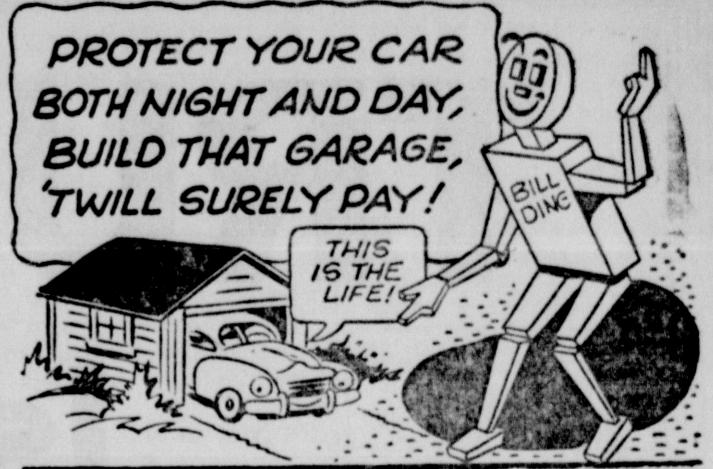

Foreman—"How come you're only carrying one sack when the other men are carrying two?"

Workman—"Well, I guess they are too lazy to make two trips the way I do."

Archaeologists have found ivory figurines from ancient Babylonia that have survived for 2,700 years. One thing this proves is that Babylonian children weren't allowed to play in the living room.

# Let's Talk Turkey

**M**AYBE it's no coincidence that we use the Turkey as a symbol of Thanksgiving and also as part of a colloquial phrase meaning to discuss realities in a straightforward manner . . . since people who face facts and act accordingly usually have more for which to be thankful. So . . . let's "talk turkey" . . . let's be frank . . . even blunt . . . on the subject of shopping at home.

And let's begin by stating a point about which there can be no argument . . . that more trade volume in a community brings about more growth, more prosperity, better living for that community's citizens.

**That is Straight Fact No. 1. Now let's move on to Straight Fact No. 2: More prosperity . . . more economic activity . . . in a community means better jobs and business, higher property values, better schools, stronger churches, more neighbors better able to help carry the community expense and work load.**

For Straight Fact No. 3, let's go negative: The dollar we spend in some other city means \$3 or \$4 or more dollars of trade volume lost to our community as it stops circulating here . . . and the social and material benefits this lost trade would buy for us go instead to somebody else . . . who lives where our money is spent.

**It Pays to Buy Where You Live!**

Of all the business establishments in the world—only those in Hamlin are sincerely interested in the future of Hamlin and in the future of YOU who live here . . .

**talk turkey.** To talk in a frank or blunt way; to present unwelcome aspects of something plainly and with frank directness.—Webster's New International Dictionary.

# TRUE THANKSGIVING

## Is in the Hearts of People

In the spirit of this Thanksgiving season the local business firms whose names are listed below join with this newspaper in thanking the citizens of this community for their continued patronage and support. This loyalty to your home town and its business firms mean continued prosperity for us all and enlivens the prospect of future growth.

We give thanks for this pride of our home town, without which there would be no small communities throughout this land. In the be-

ginning it was this pride in community life, the schools and churches and business houses, that caused the home towns of America to grow. Such abundance and freedom of spirit of movement as pictured above is unknown today in a great portion of the world. We are truly grateful that we enjoy this blessing and wish it for all peoples. As long as it exists, towns like ours will continue to be wonderful places in which to live. We join together to give thanks for this pride and the abundance which it has produced.

## Early Mailing of Christmas Mail to Assure Delivery

Postmaster Perry Sparks said this week, "Early mailing of all Christmas cards and gifts in the shortest single factor in getting all of the mail delivered before Christmas."

The postmaster urged special care in preparing gift packages for the mails. Make sure that all addresses are legible and complete.

"If you have any articles of unusual size or bulk, better check with the post office before attempting to mail them," the postmaster warns. The limits on size and weight of packages vary, depending on where you mail your package.

When wrapping gifts for mailing it is always better to use corrugated cartons, especially where there are a number of various sized objects in the shipment. Use plenty of wadded tissue

**DEFENDING SELF.**  
Diner—"Waiter, this soup is cold. Bring me some that's hot." Waiter—"What do you want me to do—burn my thumb?"

I like work; it fascinates me. I can sit and look at it for hours. I love to keep it by me, and the idea of getting rid of it nearly breaks my heart.—Jerome K. Jerome.

or newspaper for extra protection against shock, and securely wrap each package or carton in heavy paper, and then tie it with strong cord. Be sure to include an extra label with your return address and the recipient's address inside the carton or package before it is wrapped.

Another good idea is to place a piece of transparent cellophane tape over the address portion of the label on your package to prevent defacing in transit, and always make sure to include the recipient's full name, street address, city, zone and state.

"Remember these three rules," Sparks said: "Wrap securely, address correctly and mail early."

## Nazarene Church Plans Celebration Of Anniversary

Looking toward the 1958 golden anniversary year of the Church of the Nazarene, Dr. S. T. Ludwig, general church secretary, has outlined a series of simultaneous events in which every church of the denomination will participate.

Pastors of all local Nazarene churches now are planning for individual or union watch night services on December 31, which will usher in the jubilee year, declares Rev. Bill Hanna, pastor of the Hamlin Church of the Nazarene.

Other simultaneous services in Nazarene churches around the world will include:

January 5—Worship service marking the start of the anniversary year.

April 6—Easter offering for world missions. Goal, \$1,000,000.

October 12—Fiftieth anniversary Sunday services.

November 23—Thanksgiving offering for world missions. Goal, \$1,000,000.

Official birthday of the Church of the Nazarene was October 13, 1908, at Pilot Point, Texas, when a group of smaller churches in the East, West and South formally united.

Sharing a belief in the Wesleyan doctrine of entire sanctification or heart purity, the original 228 churches and 10,000 members have increased in 50 years to 4,500 churches with approximately 300,000 members.

The local Church of the Nazarene plans full cooperation with the denomination in all fiftieth anniversary activities, Rev. Hanna declares.

### Resolutions May Aid Income Tax Returns

Now is the time for a good solid New Year's resolution, declares Tax Man Sam, in a release to The Herald. First resolution: I will keep good tax records this year to enable me to pay less income tax. Second resolution: I will carefully read the tax instructions this year to avoid mistakes that will cost me. Third resolution: I will file my 1957 return as soon as possible since 60 per cent of North Texas taxpayers receive a refund, my chances of a refund are good. Fourth resolution: I will avoid tax penalties by filling my tax as required by the instructions.

Taxpayers making and keeping these resolutions will be happier and wealthier taxpayers next year.

## Hamlin Junior High School Gridders Lead District in Scoring

Hamlin Junior High School's Mighty Mice football team not only led the five-team junior high loop with eight victories out of that many games, but also led the scoring parade for the season, a tabulation of the scores reveals.

Comparative scores for the five member teams follow:

Hamlin 239, Opponents 71. Albany 194, Opponents 78. Anson 153, Opponents 155. Rotan 105, Opponents 202. Merkel 57, Opponents 242.

Totals....748 748

Most of Hamlin's games were high scoring affairs. Only two were close. The Mighty Mice eked out a 7 to 6 victory over Merkel in their second game, and won over Albany 6 to 0 in the sixth tilt. Complete scoring of games of the season follows:

Hamlin 19, Albany 6. Hamlin 7, Merkel 6. Hamlin 33, Anson 18. Hamlin 27, Rotan 6. Hamlin 35, Jim Ned 20. Hamlin 6, Albany 0. Hamlin 54, Merkel 0. Hamlin 41, Rotan 14. Hamlin 52, Anson 21.

Seymour High School Panthers, champions of District 4-AA of which the Hamlin Pied Pipers are members, advanced to the second round of the Class AA play-off

Friday afternoon at Childress when they blasted the Perryton Rangers 13 to 6. The Panthers, by virtue of their bi-district victory, will meet Lockney tomorrow (Friday) evening at 7:30 o'clock on the Snyder High School grid.

Seymour showed its power as soon as the game got underway when Larry Martin made a 90-yard gallop for the first touchdown on the first play from scrimmage. The extra point was missed.

From then on the contest was a nip-and-tuck affair as a strong Perryton line, backed up by Don Seymour in the backfield, slugged back to prove they were not to be run over.

About 3,000 chilled fans, including a handful from Hamlin, witnessed the engagement in a chilly and damp atmosphere.

Perryton made nine first downs to only six for Seymour. However,

the Panthers held a 227 to 121

yard margin in gains on the ground. Seymour complete one of three passes for 49 yards, while Perryton connected with three of eight aerials for gains of 83 yards. Seymour intercepted three of Perryton's passes.

## District Champion Seymour Defeats Perryton 13 to 6

Seymour High School Panthers, champions of District 4-AA of which the Hamlin Pied Pipers are members, advanced to the second round of the Class AA play-off

Friday afternoon at Childress when they blasted the Perryton Rangers 13 to 6. The Panthers, by virtue of their bi-district victory, will meet Lockney tomorrow (Friday) evening at 7:30 o'clock on the Snyder High School grid.

Seymour showed its power as soon as the game got underway when Larry Martin made a 90-yard gallop for the first touchdown on the first play from scrimmage. The extra point was missed.

From then on the contest was a nip-and-tuck affair as a strong Perryton line, backed up by Don

Seymour in the backfield, slugged back to prove they were not to be run over.

About 3,000 chilled fans, including

a handful from Hamlin, witnessed the engagement in a chilly

and damp atmosphere.

Perryton made nine first downs to only six for Seymour. However,

the Panthers held a 227 to 121

yard margin in gains on the ground. Seymour complete one of three passes for 49 yards, while Perryton connected with three of eight aerials for gains of 83 yards. Seymour intercepted three of Perryton's passes.

## NEW POINT OF VIEW.

A Red professor, lecturing on insects at a satellite university, was bent on indoctrinating his students in Marxian methods of thinking.

"In my right hand," he began, "I have a flea. I now order the flea to jump over to my left hand. As you see, the flea obeys me."

"Now," he continued, "I remove the legs of the flea and order it to jump again. You will note that the flea does not jump. This, gentlemen, proves scientifically that a flea whose legs are removed becomes deaf."

Let us be silent that we may hear the whisper of God.—Emerson.

back threw a 36-yard pass to End Thomas Carter, who went the remaining 20 yards for a touchdown. The extra point was blocked.

About 3,000 chilled fans, including

a handful from Hamlin, witnessed the engagement in a chilly

and damp atmosphere.

Perryton made nine first downs to only six for Seymour. However,

the Panthers held a 227 to 121

yard margin in gains on the ground. Seymour complete one of three passes for 49 yards, while Perryton connected with three of eight aerials for gains of 83 yards. Seymour intercepted three of Perryton's passes.

## Last Football Games On Junior High Loop Schedule Played

Two more football games were played last week by four teams of the Junior High School loop of the district, but they did not affect Hamlin's command of the league. Hamlin had already completed its season with a perfect record in eight games.

Final standings of the league, after last week's games, stood like this:

Teams	P.	W.	L.	T.	Pct.
Hamlin	8	8	0	0	1.000
Albany	8	4	3	1	.562
Anson	8	3	3	2	.500
Rotan	8	2	4	2	.375
Merkel	8	0	7	1	.062

Results Last Tuesday.  
Anson 34, Merkel 19.  
Albany 68, Rotan 0.

## Thanksgiving Greetings from STYLE CLEANERS

It is our earnest wish that every person who reads these words shall have as good reasons for giving thanks as we have. We are deeply grateful for the way in which this community has rewarded our efforts to give them the very best available in a needed service. Our sincere thanks, therefore, to all our patrons as well as to the source of all our blessings.

### Resolutions May Aid Income Tax Returns

Now is the time for a good solid New Year's resolution, declares Tax Man Sam, in a release to The Herald. First resolution: I will keep good tax records this year to enable me to pay less income tax. Second resolution: I will carefully read the tax instructions this year to avoid mistakes that will cost me. Third resolution: I will file my 1957 return as soon as possible since 60 per cent of North Texas taxpayers receive a refund, my chances of a refund are good. Fourth resolution: I will avoid tax penalties by filling my tax as required by the instructions.

Taxpayers making and keeping these resolutions will be happier and wealthier taxpayers next year.

# Thanksgiving Day

From its earliest beginnings Thanksgiving has been a family occasion, the gatherings of those we love, a yearly meeting to give thanks to Him who has given us so much.

We will be closed all day Thursday, November 28, in observance of Thanksgiving Day. Our patrons will please arrange their banking business with this in mind.

## Linda Williams Finally Gets Through To Elvis Presley for Role in Picture

Teen-age girls have employed every trick in the book to meet their idol, Elvis Presley—but it's a rarity when one of the stunts succeeds.

In Detroit, a girl went on a "sit down" strike on the floor in front of his back-stage dressing room.

### Continued Gain in City's Sunday School Attendance Shown

For the third Sunday in a row attendance at the city's Sunday Schools showed gain following the five-Sunday drops registered during the flu epidemic, according to tabulations made by The Herald. The 1,227 total for Sunday was 25 more than the previous week, but was 32 below the year ago total.

Attendance figures, by churches, for November 24, November 17 and a year ago follow:

Nov. Nov. Year	Churches	24	17	Aug.
First Baptist	404	363	415	
No. Cen. Baptist	83	70	70	
Oak Gr. Col. Baptist	35	35	41	
Mexican Baptist	47	48	53	
Ch. of Nazarene	80	78	67	
First Methodist	184	197	224	
Foursquare Gospel	42	56	54	
Faith Methodist	48	50	29	
Sunset Baptist	51	38	48	
Church of Christ	168	171	138	
Calvary Baptist	43	48	54	
United Pentecostal	13	16	18	
Assembly of God	28	32	44	
<b>Totals</b>	<b>1227</b>	<b>1202</b>	<b>1259</b>	

Fried Chicken May Be Varied in Method

Fried chicken does not have to be served in just one way. For increased appetite and menu appeal, vary your method of frying by trying French fried, oven fried or sauteed chicken.

Another crisp and tender dish results when you make pretzel batter chicken. Dip the disjointed frying chicken in beaten eggs. Then dip it in finely crushed pretzels. Fry slowly in hot fat. Then sprinkle with freshly grated black pepper during the frying. Additional salt is not required, since the pretzels are well salted.

### Stability, Spirit of Peace Needed in U. S., Rotary Told

"If we must have war, let us hope that it will always be a cold war and not a hot won," tritely declared Rev. Calvin Bailey, pastor of the First Baptist Church, when he spoke at the Wednesday noon luncheon of Hamlin Rotary Club at the oil mill guest house.

Bailey provided the principal portion of the program after some remarks by Congressman Omar Burleson, who was a surprise guest with his wife at the luncheon. Burleson declared that "Disarmament is the hope of the world, because the awfulness of a shooting war now would be devastating in its scope with modern methods and equipment."

Bailey reviewed the events and circumstances that had brought the people of the United States, always seeking liberty and freedom, to their present status. The spirit of unity and oneness, said Bailey, has characterized their success.

"Now," declared the minister, "in the turmoil of world tensions, we need to remember three principles that will help solve the world's problems: We need stability in the midst of instability; we need the ability of friendship in face of disagreement; and we need a spirit of peace-making."

Besides the congressman and his wife and Rev. Bailey, other guests at the Wednesday luncheon included W. E. Wallace of Sweetwater, A. B. Youngblood and E. O. Pearson of Abilene, W. M. Blackburn, and Virgil Wilson, Junior Rotarian for the month.

Youth is undoubtedly the proper, permanent and genuine condition of man, and if we look closely into this delusion of growing old we shall find that it never absolutely succeeds in laying hold of our innermost convictions.—Nathaniel Hawthorne.

### ROOFING

Let the Lydick-Hooks Roofing Company make you an estimate to re-roof your residence or building.

The sick pay exclusion provisions in the income tax law are especially kind to salaried people who are excused to go for treatment because of an injury. If you had any extended sick spell and injury lost time and your company paid your regular wages during the year, you ought to read the instructions carefully.

LYDICK - HOOKS ROOFING CO.

REV. EDMUND W. ROBB, pastor of the First Methodist Church, who was program chairman for last Wednesday's Rotary Club program, declared as he presented his fellow pastor of the First Baptist Church, that when Calvin Bailey first made an attempt at preaching he was discouraged a little by a fellow who heard his first sermon.

"Calvin," the listener is reported to have asked him, "whatever gave you the idea that you should become a preacher?"

"Well, I'll tell you, fellow, while I was out in the field working one day I saw the letters 'G. P. C.' in the sky and I felt it meant 'Go Preach Christ!'"

"That may have been where you were misled, Calvin," said the man. "It could have meant 'Go Plow Corn, you know.'"

THANKSGIVING is a wonderful period of the year which brings thoughts of gratitude that would not be inappropriate all through the year. Some poet has put it this way—

You don't need a bank-full  
Of cash to be thankful,  
Be thankful you have what you do.  
Don't envy your neighbors,  
The fruits of their labors,  
Your fortune rests solely with you.

Here's cause or thanksgiving:  
The fact that you're living  
Where freedom of enterprise  
reigns.

Where all can aspire  
To what they desire;  
Each welcome to what he attains.

If you have what's needed  
You can't be impeded  
By limits on courage and skill.  
No blessing is greater,  
So thank your Creator  
And ask for His guidance and will.

One point to remember  
In June or November,  
Or when you feel thankfulness  
most:  
There's no earthly power  
Can dictate the hour  
Or how you give thanks to your  
Host.

HAVE YOU ever wondered  
why the turkey looks bald  
and seems to have blisters on his  
head?

There is an old legend among  
the Indians of North America,  
the original home of the turkey,  
that tells the reason. The legend  
says that at the beginning of one  
winter the fires of the world had  
all been extinguished except one  
tiny spark in the hollow of a tree.  
And this tiny spark was dying.  
It would have gone out if the  
turkey hadn't kept it alive by  
fanning it with his wings. As the  
heat increased, all the feathers  
were singed off his head, but he  
kept on fanning—and so gave fire  
back to the world.

So the turkey's bald head and  
blisters are really a badge of  
honor.

UP—Freddie, a pig born without hind feet, gets around walking on his forelegs. He has become a barn yard pet of Dr. A. N. Boyd family of Houston, and will not go to market with the rest of the litter that was born at the same time.

## Cotton Quota Trend May Change in Area

Because of varying reactions of farmers to the cotton acreage control program in the Hamlin territory and elsewhere in recent months, a new trend in voting on marketing programs may be reflected in the forthcoming election by cotton growers.

Cotton producers of the nation will vote on December 10 to determine whether or not marketing quotas will be in effect on their 1958 crop. According to R. G. Schrauner, chairman of the Texas Stabilization and Conservation Committee, this will be the twelfth time that growers have registered their choice on this question.

Marketing quotas have been in effect for the last four crops. Last December 92.4 per cent of the farmers voting approved quotas

### Fayma Downey Is on Tarleton Rifle Team

Fayma Downey, daughter of Mr. and Mrs. Henry E. Downey of Hamlin, is a member of the Tarleton State College girls' rifle team, according to a release from the Stephenville school to The Herald.

Miss Downey is a senior home economics major at Tarleton State College.

### Outstanding 4-H Members and Adult Workers Get Awards in Anson Rites

Over 100 awards were made at the local observance of National 4-H Club Achievement Day Monday night in the Anson High School auditorium, according to Mary Y. Newberry, home demonstration agent, and Bill Lehmburg, county agent.

Congressman Omar Burleson was guest speaker for the program and he presented awards to the 4-H Club girls and boys and junior leaders who had done outstanding work in the various Jones County 4-H Clubs.

Fern Hodge, District III agent, presented awards to 10 women adult 4-H leaders, and Ted Bue, agronomist of A. & M. College, presented awards to nine men adult 4-H leaders.

Special Farm Bureau awards to 4-H Club members were presented by Harris Wright, service agent of the Jones County Farm Bureau.

Birger Haterius of Ericksdahl, chairman of the Jones County 4-H committee, presented five awards given for the first time to news media supporting 4-H Club work.

These special awards went to: Ed Sprowles of The Western Observer at Anson, Roy Craig of The Stamford American, Willard Jones of The Hamlin Herald, Phil Keen of Radio Station KDWT, and Bob Cooke and Duane Howell.

## Tickets for BCD Banquet To Go on Sale in Few Days

### Interest Growing In City Christmas Decoration Plans

Increasing interest is being shown in the Christmas decorating contests announced last week by officials of the Woman's Forum, city-wide women's club organization, which will provide the cash awards.

Christmas decorations will be placed by women's club of the city in vacant store windows of the downtown section as a civic improvement project by the Forum. Each of the nine participating clubs of the Forum will be responsible for a window in the project.

Owners of homes in Hamlin also are being urged to decorate their residences and yards for the Christmas season.

Prizes of \$5 for first place and \$2.50 for second place are being offered in each division by the Forum.

Deadline for decorating windows to be eligible for the prizes will be December 10, it is announced.

Judging of the windows will be done between December 15 and December 21 by out-of-town judges, officials of the Forum declare.

Windows will be judged on five points: Theme, originality, beauty, neatness and effectiveness.

### Hamlin Football Fans To See Tilt at Snyder

Several Hamlin area football fans are expected to go to Snyder Friday evening for the second round of Class AA football in this area. Seymour, winner of District 4-AA competition, last Friday afternoon defeated Perryton 13 to 6 to gain the right to meet Lockney.

### Waxahachie Man to Preach for Revival

Scheduled to be the preacher for a series of revival services beginning next Wednesday at the Sunset Baptist Church is Rev. A. L. Meador of Waxahachie, outstanding evangelist of the Baptist Missionary Association of Texas. The services will be held each evening at 7:30 o'clock, continuing through December 8, according to Rev. R. B. Tiner, pastor.

Violia was arrested and taken to county jail at Anson, where her cases for set for hearing within a few days, declared Police Chief Watson.

The Henry place had been under surveillance for several days

and had even been raided once before but no intoxicants were found.

This time the officers went to a bedroom closet and found a trap door under the house, where the stash was found.

PLAQUE TO MARK SITE OF TEXAS' OLD M. & SPAPER — David C. Leavell (left), vice president and general manager of The Galveston News and Tribune, receives a bronze plaque from Stanley McBrayer, president of the Texas Association of Sigma Delta Chi. The plaque was presented by Sigma Delta Chi and the Texas Press Association in Houston to mark an historic site in Texas journalism. The Galveston Daily News is the oldest newspaper in Texas, having been founded April 11, 1842.

"SUN CITY" SNOW—El Paso, whose Chamber of Commerce says Sunshine spends the winter there, awoke last weekend to find something other than balmy weather. Below-freezing temperatures, all highways northward blocked, and traffic halted by ice-clad streets were rare experiences for residents. The snowfall is followed by boys with ideas about a good way to use it, as they battle in the foothills of the snow-mantled Franklin Mountains.

## Most of Town's Businesses Close for Thanksgiving Day

### Stash of Liquor Taken in Raid in Colored Division

NAMED PRESIDENT — Millard Cope, formerly of Sweetwater, now publisher of The Marshall News-Messenger, was elected president of the Southern Newspaper Publishers Association at Boca Raton, Florida.

### No Special Events Planned in Area For Celebration

Practically every business firm in the Hamlin community was due to close its door all day Thursday in observance of Thanksgiving Day, a spot check by The Herald Monday indicated. A few filling stations and eating establishments were to be the exception.

Thanksgiving is one of the five closing holidays approved by merchants of Hamlin community first of the year in voting conducted by the Hamlin Planning Board.

This year there is not the disturbance of conflicting dates for the observance of Thanksgiving Day there has been the past two years when five Thursdays occurred in November. Then the state was observing the traditional fourth Thursday in November for the holiday, whereas national observance was proclaimed for the last Thursday in the month.

All Hamlin schools were due to dismiss classes Wednesday afternoon for two days' recess from classwork, making four days for the week-end as holidays.

No special celebrations for the Thanksgiving holiday have been planned for Thursday. Most folks will visit with relatives and feast on turkey and the trimmings.

Numbers of football fans were planning to attend outstanding games of the Southwest Conference and others.

### Two Inches of Snow Falls in Hamlin Area

One of the prettiest snows ever to fall in the Hamlin territory blanketed the region last Friday morning when residents peeked out of their warm beds. The fall was registered at about two inches.

An additional in fall during the day and Friday night, but most of that fall melted as fast as it fell as the thermometer rose.

### Good Crowd Inspects DePriest School Here

Scores of Hamlin area people, as well as some from Aspermont, McCauley, Roby and Rotan, Sunday afternoon visited and inspected the DePriest Colored School in Northeast Hamlin, despite the cold weather and mud, reports Principal E. S. Morgan.

The open house was staged by the school that handles students from the other towns mentioned, principally to show the recently completed homemaking cottage that provides added facilities for homemaking classes at the school.

### Committees for Banquet Working Toward Jan. 10

Tickets for the organization meeting of the Hamlin Board of Community Development, scheduled for Friday evening, January 10, at the new high school gymnasium, are being prepared by the ticket committee headed by Jim Howard King, and will go on sale within a few days, it is announced.

The session, community-wide in its scope, will formulate a civic organization to supplant the Hamlin Chamber of Commerce, which ceased to exist two years ago when the manager accepted another post.

Arrangements for the banquet are being made by James Josey and his committee. Decorations are being arranged by Tommy Davis and Mrs. Hollis Madden.

Carl Murrell, chairman of the program committee, says a speaker has been tentatively selected for the main address of the evening, but his acceptance has not been received.

A slate of officers and directors for the Board of Community Development is being worked out for presentation at the gathering by Gene Prewitt, president of the Rotary Club, and presidents of the 21 other civic and women's organization of the community that are sponsoring the organization.

Price of the tickets to the affair will be \$1.50, which will include a bountiful banquet plate.

### Children's Picture Contest Photos to Be Made on Dec. 3

Tuesday, December 3, is the day that the kiddies of the Hamlin community will again meet their photographer friend, Winston Lucas of Irving, and have their pictures made for the annual children's photo contest.

Lucas will be at Hassen Dry Goods store on Tuesday, December 3, from 10:00 a. m. till 5:00 p. m. to make pictures of children in this area.

The photos will be made free of charge and each child will have his picture published in The Hamlin Herald. In addition, the children will be competing for \$18.20 in prizes, being offered for the three best photographs made during the day.

Proofs will be shown and from these you may make your choice for the picture you wish to appear in Your Home Town Paper.

Of course, you may purchase extra pictures, but no purchase is necessary in order to compete for the prizes.

Now, don't forget the date and time—Tuesday, December 3, from 10:00 a. m. till 5:00 p. m. Relatives and friends who live in other communities, as well as those who live here, will be quite happy and proud to see the kiddies' pictures in The Herald. There is no age limit.

### Herald Being Printed Earlier This Week

This week's issue of The Herald is going into the mails nearly two days earlier than usual, in order to permit the paper's employees and publishers to have the weekend off for Thanksgiving.

Publisher and Mrs. Willard Jones will go with their children and their families to the Lazy J Ranch in Real County to rest, eat and hunt for deer and turkey. Mrs. Etta Bond will go to Fort Worth to visit her mother. Lydia Womack, newest member of the Herald's force, will go to Spur to spend the weekend with her parents. Paul Bevan will stay at home in Hamlin.

**FATAL TO BE MALE.**  
More than twice as many males as females are killed accidentally each year, the National Safety Council reports.

settled, upon its being brought to the attention of  
the management.

## THANKSGIVING IS NOT A DAY—IT'S IN THE HEART

When apprehension fills our hearts, it is  
well to draw on the faith handed down to us  
by the Pilgrim forefathers. What must have  
filled the thoughts of that little group in the  
spring of 1621 when the Mayflower returned,  
leaving them alone on the shores of a new  
world with nothing but self reliance and a  
sturdy trust in God to sustain them.

Our Thanksgiving Day commemorates the  
harvest celebration of that first grim year—a  
harvest that rewarded workers who were  
building a new nation. Within the space of  
a little more than 300 years America has be-  
come the land of hope for every freedom lov-  
ing nation on the globe.

We are thankful that we have not lost our  
capacity for thanksgiving—thanksgiving for  
the abundance of everything we have in  
America—thanksgiving for friends and many  
of the world's joys and pleasures.

No doubt many of us think of the day pri-  
marily as a day of feasting, when members of  
the family get together for a visit, and then  
take the stuffed turkey and cranberry sauce  
and mince pie and do a lot of stuffing of our  
own stomachs. These family gatherings are

## Observe School Bus Law

There is a continuing need for safety edu-  
cation among the motorists of Texas, declares  
J. W. Edgar, commissioner of education, after  
he reviewed several weeks of operation of  
the new Texas law requiring all vehicles to  
stop when approaching a school bus loading  
or unloading children.

There were two more fatalities during 1956-  
57 than were reported to the Department of  
Public Safety in 1955-56. The total number  
of accidents reported declined, however, from  
379 to 335. (During the past year the highway  
department erected signs on all major roads  
warning motorists of the safety measure).

The law says in effect, that upon meeting  
or overtaking a school bus which has stopped  
on the highway for the purpose of receiving  
or discharging children, the driver of any  
vehicle shall stop immediately before passing.  
After coming to a stop the driver of the vehicle  
can proceed with due caution at a speed  
which is prudent and does not exceed 10 miles  
per hour. The law does not apply within city  
limits.

Vehicles are not required to stop on high-  
ways with separate roadways when the bus  
is on a different roadway from that of a passing  
vehicle. Vehicles are not required to stop  
if the school bus is stopped in a loading zone  
which is a part of or adjacent to a controlled  
access highway and where pedestrians are  
not permitted to cross the roadway.

All public school buses are painted yellow  
and have "School Bus" painted in large letters  
on the front and rear of each bus. They are  
equipped with flasher lights usually mounted  
high on the front and rear of the bus. These  
flashing lights are used only when the bus  
is in the process of stopping or is stopped to  
receive or discharge children.

## Do Good Things Today

Life is a matter of knowing what to select  
and what to pass by. We haven't time for  
everything, so we should choose that which  
will count most for ourselves and others in  
the long run.

What the world needs is a religion that  
will not put the bad strawberries at the bottom  
of the box.

It is a great mistake to set up our own  
standards of right and wrong just because  
"others do it."

Tomorrow is never an acceptable substitute  
for today. That is why the best intentions can  
usually be discounted at about 50 per cent  
of their face value. The millennium would  
be crowding us hard if the good things people  
intend to do tomorrow were done today.

Music in the best sense does not require  
novelty; nay, the older it is, and the more  
we are accustomed to it, the greater its  
effect.—Goethe.

RECALLING  
Other Years

★ Being news items taken  
from old files of Your  
Home - Town Newspaper.  
The Herald.

## THIRTY YEARS AGO.

News of interest in the Hamlin  
community of 30 years ago includ-  
ed the following, reproduced from  
the issue of The Hamlin Herald  
dated November 25, 1927:

Bryant-Linck Grocery advertis-  
ed two loaves of bread for 15 cents,  
bucket of coffee for \$1.32, eight  
pounds of sugar for \$1.23.

Mrs. L. T. Cox was hostess to  
members of the Tuesday club at  
her home Tuesday afternoon. Attend-  
ants were Mrs. H. O. Cas-  
sle, Billy Bryant, Bowen Pope,  
J. O. Sauls, B. W. Nobles, Russell  
Boyd, T. E. Harden, J. V. Milsap,  
J. W. Hodges, Paul Friend, and  
Misses Ella Temple and Pearl  
Whitely.

Mrs. O. K. Wilson, with Mr. and  
Mrs. W. O. Nowlin and daughter,  
Louise, of Stamford, visited in  
Fort Worth, Corsicana and Dallas  
first of the week.

## TWENTY YEARS AGO.

Printed as news in the Hamlin  
vicinity 20 years ago were the  
following items, taken from the  
issue of The Hamlin Herald dated  
November 26, 1937:

Richard Feagan, a student at  
Southern Methodist University in  
Dallas, is home to spend the  
Thanksgiving with his parents, Mr.  
and Mrs. Elmer Feagan.

Pat Albritton and Hermona  
Shadle entertained a group of  
friends Friday evening with a  
scavenger hunt party. Those attend-  
ing were Katherine Adkins, Pauline  
Harrell, Doris Pope, Elva  
Greenway, Geneva Albritton, Margaret  
Rowe, Ann Hudson, Irene  
Thompson, Ruby Thompson, Mrs.  
Alpha Shands and Frances Eddie  
Beck of Rotan, Thomas S. Ferguson,  
Forest Greenway, Kurt Schoemann,  
Artie Cassle, John D. Ferguson,  
Delma Shelburne, David  
Crockett, Weldon Johnson, B. L.  
Jones, Bill Norris, Austin Foe,  
George Kinney of Stamford, and  
H. F. Grindstaff of Rotan.

Grady Smith and Pete Bond  
and Ruby Mayfield and Mavis  
Smith visited Mr. and Mrs. Bill  
Hall at Pampa Sunday.

## TEN YEARS AGO.

Among items of interest in the  
area 10 years ago were the follow-  
ing news briefs, taken from the  
issue of The Hamlin Herald dated  
November 28, 1947:

A football game featuring for-  
mer Army and Navy men is on  
schedule for December 6. On the  
Army line-up will be D. W. Carlton,  
Glen Winsted, J. R. Elliott,  
J. E. Johnson, Dean Witt, Harold  
Wheat, Joe Sam Gray, Sam Holt,  
Doby Johnson, J. B. Terrell, L. B.  
Petty, Runt McCoy and Jake Weir  
with Ottie Huling as water boy.  
On the Navy line-up will be Lee  
Hastings, Glenn Adair, Joe King,  
S. C. Ferguson Jr., Bill Harbert,  
Bobby Barrow, Larry McCoy, Dick  
Branscum, J. L. Blanton, Dick  
Lowe, Lee Carter, Jack Kelly and  
Raymond Elkins with Clinton  
Packwood as water boy.

Hamlin Pied Pipers dropped the  
last game on their football slate to  
Haskell by a 20 to 0 score last  
Friday night to end their district  
season in the cellar with six losses  
and one tie.

## FIVE YEARS AGO.

Considered news in the Hamlin  
community five years ago were the  
items below, reprinted from the  
issue of The Hamlin Herald  
November 28, 1952:

Engineer Rube Harmon of the  
Santa Fe passenger train that was  
involved in a car-train collision at  
Hamlin Sunday morning that killed  
Jean Pugh, 24-year-old Stamford  
telephone operator, declared that  
the girl saw the train but was travel-  
ing so fast she could not stop in time to avoid the  
collision.

Mr. and Mrs. J. H. Morton, farm  
couple living south of Hamlin, were  
killed about 7:00 o'clock Tuesday  
morning between Breckenridge and  
Palo Pinto on Highway 180 when their car was in collision  
with another auto.

Plans for the Christmas Festi-  
val at Hamlin on December 5 are  
shaping up nicely.

## ONE YEAR AGO.

Happenings in the territory a  
year ago included the following,  
reprinted from the issue of The  
Hamlin Herald dated October 25,  
1956:

Work on the new \$150,000 gym-  
nasium and band practice rooms  
has about been completed, and  
formal opening and open house for  
the structure is set Sunday after-  
noon, according to Superintendent  
of Schools C. F. Cook.

Offerings taken last Wednesday  
evening at the union Thanksgiving  
service at the First Methodist  
Church will be used to aid trans-  
ients, say officials of the Hamlin  
Ministerial Alliance, sponsor of  
annual union services.

Strong Market on Calves Featured at  
Fort Worth First of Week, Says Gouldy

Trade at Fort Worth Monday  
featured a very active and strong  
market on calves, declared Ted  
Gouldy, special market reporter  
for The Herald, in his weekly  
summary. His release continues:

Both slaughter and stocker in-  
terests were active in the trade.

Fat calves of the choice variety  
have been increasingly scarce in  
the runs, and some sales in this  
category are unevenly higher  
again.

All kinds of stockers and feed-  
ers were fully steady and bulls  
again sold at the advances of last  
week.

Trade on cows was rather slow  
as most packer interests tried to  
lower costs on the early rounds.  
However, the clearances were at  
generally steady prices.

Fed cattle were relatively scarce, and  
some interests were talking 50  
cents lower prices in view of the  
big run in the Corn Belt points.  
However, quality considered, there  
was little change in the market.

Comparative prices: Good and  
choice slaughter steers and yearlings  
brought \$20 to \$22.50, high  
choice or prime quotable well over  
that bracket. Common and me-  
dium sorts sold from \$14 to \$20.

Fat cows cashed at \$14 to \$15.50,  
and canners and cutters cashed at  
\$9 to \$14. Bulls returned \$12 to  
\$16.50. Good and choice slaugh-  
ter calves cashed at \$20 and \$22,  
and common and medium sorts  
netted \$15 to \$19.50. Culls sold  
mostly from \$12 to \$14. Good to  
choice stocker steer calves sold  
at \$20 to \$24, and stocker heifer  
calves ruled at \$22 down. Stocker  
steer yearlings bulked at \$22.50  
down. A few replacement cows  
sold from \$10 to \$16.

Advises received in Fort Worth  
this week from the Foreign Agri-  
cultural Service of the U. S. De-  
partment of Agriculture say that  
attractive prices "in the United  
States for manufacturing beef"  
from Australia and Argentina  
have led the New Zealand meat  
exporters to plan increased exports  
to the United States.

In the January through August  
period in 1956 only 2,990,000  
pounds of New Zealand beef was  
imported to the United States,  
however, during the same interval  
in 1957 the New Zealand imports  
totaled \$2,573,000.

By "manufacturing beef" they  
mean boned-out meats suitable for  
canning or sausage operations,  
which renders competition to the  
"canners" and "cutters" produced  
by United States cattlemen and  
dairymen.

At times during the past year  
these imports had a depressing  
effect on the market for boning

types of livestock in the trade at  
Fort Worth.

The small (1,400 head) receipts  
reported in the sheep yards at  
Fort Worth Monday included  
about 500 goats. The trade was  
active and strong, quality consid-  
ered, and good and choice fat  
lambs sold from \$21 to \$22. Fancy  
types were lacking. Stocker and  
flock lambs of just medium and  
good kinds sold from \$18 to \$21.  
A few slaughter ewes sold at \$9.

The goats again continued to  
make a lot of news as this new  
"outlet" was again very good.

Slaughter goats sold from \$6 to  
\$7.50, and stocker kinds would be  
quotable well above that range.  
The trade in goats is relatively  
new a Fort Worth, but with a  
number of packers interested in  
getting goats he, it has followed  
that buyers seeking stockers have  
come in to pick up any youngish  
ones.

National packers are expected  
to step into the trade and allocate  
definite periods to goat slaughter.

on the basis of the numbers now  
coming here to market.

Under federal rules goats and  
sheep cannot be killed together,  
and the change-over involved with  
the national packers is a big fac-  
tor in the development of the  
trade.

Butcher hogs managed to hold  
steady at Fort Worth Monday  
with the top \$17.50 to \$17.75, and  
medium to good butchers at \$16  
to \$17.25.

The packing sows, which for  
long have been selling right up  
against the top butchers, took a  
tumble. A few choice lightweights  
sold steady at \$16.50 to \$17, but  
the rank and file packer sows  
sold from \$15 to \$16, and some  
of the heavies in the \$15 to \$15.50  
level were about \$1 off.

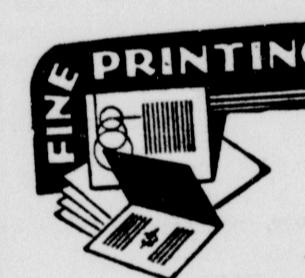

**SAFER DRIVING NOW.**  
Motorists are driving safer this  
year than last, the National Safety  
Council says. In 1956, 40,000 per-  
sons died in auto accidents. This  
year the toll may drop to 38,000.

**Many Students May Get Tax Return for Part-Time Pay Deduct**

A lot of folks will argue with you on how good the "good old days" were, but not many folks will argue that times haven't changed, observes Tax Man Sam in a release to The Herald.

A lot of boys and girls in high schools and colleges work no part-time jobs and especially summer jobs. These students had income tax withheld from their wages but not did make over \$600 in many cases. Fortunately, the law provides for dad to claim them as an exemption as well as allowing the student an exemption for himself on his own income tax return, providing dad furnished chief support (more than 50 per cent) for Junior.

It will pay the students to look up their Form W-2 statement of income tax withheld and be ready to file their income tax return on January 1. The sooner they file the sooner they will get a refund of the income taxes withheld from their wages last summer.

**Some Economic Protection Needed For Farm Industry**

President of the Texas Farm Bureau declared at Dallas Tuesday that farmers and ranchers must demand some form of economic protection as long as agriculture is forced to "buy in the captive market of industry" and has to pay "any price collective bargaining can obtain."

J. Walter Hammond of Tye told delegates to the organization's twenty-fourth annual convention that the segments of nation's economy are inter-dependent. In the convention were Mr. and Mrs. C. E. Gregory of Hamlin as delegates from the Jones County Farm Bureau.

"If one segment lags too much all must bear the consequences," he stated. "All depressions in our history have been farm led and farm fed. When the buying power of agriculture falls behind, workers must be let off in industry. This results in even less buying power and more workers lose their jobs. Thus we have the downward spiral that can only lead to a depression."

Hammond told the 1,500 Farm Bureau members convened at the Hotel Adolphus that "we cannot allow agriculture to trigger an economic set-back from which we might never recover."

He stated that continued price support legislation must be the core of any farm program—a floor to prevent disastrous farm price slumps.

The Federal Bureau of Investigation was created in 1908.

CIRCUS PERFORMER TO RETIRE AT AGE FIVE—Roman Schmitt, five, bones up on his spelling alongside his old pal the elephant, during a lull between performances of the Ringling Brothers, Barnum & Bailey Circus at Dallas. Roman, who rides atop the mammoth in his father's elephant act, will retire at the end of the season and enter school at Sarasota, Florida, where the family lives during the off season.

**Precautions by Motorists May Keep Pedestrians from Being Dead Wrong**

"The pedestrian may be wrong, but he doesn't deserve a death sentence." Thus, a safety warning was given drivers this week by J. O. Musick, general manager of the Texas Safety Association, who spoke in behalf of TSA's current pedestrian protection program.

"Our high pedestrian fatality rate is an indictment of the selfish attitude displayed by many drivers," Musick said. "Of course, pedestrians often invite disaster by their careless actions, but this doesn't excuse auto drivers from blame."

About one in four traffic fatalities involves a pedestrian, according to National Safety Council statistics. During 1956, 7,950 pedestrians were killed.

Musick said the fact that cars generally weigh well over 3,000 pounds, while the average man weighs around 160 pounds, should convince any driver that he needs to take extra precautions to protect pedestrians.

Musick listed the following rules as musts for drivers who want to discharge their responsibilities to pedestrians in traffic:

1. Stop at cross-walks for pedestrians.
2. When stopped at a cross-walk stay behind the line until signals change.

**Deadlines for Entry Of Livestock Set by Fort Worth Show**

Deadlines for entry of cattle, sheep, swine, horses, poultry, pigeons and rabbits in the 1958 Southwestern Exposition and Fat Stock Show at Fort Worth have been announced.

Potential exhibitors of cattle, sheep and swine must have their entry blanks postmarked by December 15. Horse show entries must be postmarked January 1, and poultry, rabbits and pigeons by January 10.

The Fort Worth show, scheduled January 24 through February 2, is offering cash awards totaling \$188,374 for livestock and horse exhibitors and rodeo contestants.

Seven breeds of beef breeding cattle—Herefords, Polled Herefords, Aberdeen-Angus, Brahmans, Shorthorns, Santa Gertrudis and Brangus—have been allotted \$45,180 of the premium total.

First U. S. cotton mill was built in Massachusetts in 1803.

Grace  
for  
Thanksgiving Day

We thank Thee, Father, for Thy love  
That gathers us in sweet accord  
To count our blessings and enjoy  
The bounty of our gracious Lord.

We see our harvest-mellow land  
Round out another peaceful year,  
Assuring all men, everywhere,  
Those joys of life that are more dear  
Than daily bread: home, love, work, friends;  
The blessed right to speak and pray  
As each one wills. God keep us strong  
To follow on our chosen way!

Help us to look beyond the feast  
To sharing with our fellowmen  
All these Thy boundless gifts. And last,  
Be Thou our Unseen Guest.

Amen.

## New Ceramic Tiles Offer Decoration Possibilities with Many Variations

Some of the nation's finest artists have hitched their drawing boards to ceramic tile. Why? To meet a demand created for tiles suitable to American decor.

Many artisans have relied on old patterns found across the seas, perhaps from Egyptian burial vaults are the tile splendor found in palaces or paved streets for use in American homes. But this new distinguished designer series produces tiles that are typically American.

The traveled from India, Turkey, Algiers, Morocco, Holland, Spain, Italy, leaving its imprint

Baptist Women Meet In Circles Groups for Mission Book Study

Members of the Woman's Missionary Society of the First Baptist Church met in circles Monday afternoon for a study of the mission book, "A Continent in Motion."

At the meetings plans were made for Thanksgiving baskets for several families.

The Littleton Circle met with Mrs. Johnie Agnew, and Mrs. Edgar Duncan taught the lesson. The Lockett Circle met with Mrs. George Campbell, with Mrs. Bill Shira teaching the lesson. The Lois Glass Circle met with Mrs. E. B. Watson, the lesson being led by Mrs. J. O. Murphree.

The Mae Davis Circle met with Mrs. J. C. Greenway, and Mrs. Cecil Sellers taught the lesson. The Nannie David Circle met with Mrs. M. H. Castleberry, with Mrs. Vernon Sharer teaching the lesson.

C. P. Amersons to Be Feted at Anniversary Open House Sunday

Open house, honoring Mr. and Mrs. C. P. Amerson on their golden wedding anniversary, is being hosted by their daughter and son-in-law, Mr. and Mrs. John C. Bryant, on Sunday, December 1.

The open house event will be held at the Amerson home, east of Hamlin, between 2:00 and 5:00 p.m.

The Amersons have spent most of their 50 years of married life in Jones County, where they are widely known. No formal invitations are being mailed in the county, but all friends and relatives are invited to attend. The couple ask that no gifts be sent.

Plenty of Favorite Foods for Holiday on Plentiful Foods List

Plenty of most of the traditional holiday foods insure homemakers that there will be no shortages when their shopping begins for the foods normally used during the holiday season.

If you decide to decorate with tiles, keep these pointers in mind:

Choose tiles that are compatible to room furnishings.

Be sure colors are those you can live with no matter how you change the room decor.

The tile pattern must be quietly displayed, not splashed in an arrogant display. It must be pleasing to the eye. These tiles may be placed dramatically, not necessarily in a symmetrical pattern.

### PREVENT STICKING.

Canned cream corn won't stick to the bottom of the pan if you first melt a pat of butter or margarine in the bottom of the pan. Add the corn and heat slowly. The corn will not stick to the pan even if it isn't stirred.

December plentiful vegetables include peas, canned and frozen, and dry blackeyed peas. Pinto beans, too, are on the list.

Dates, almonds and filberts complete the December plentiful list.

Blue Fairies Girls and Leaders Visit Herald For Plant Inspection

Members of the Blue Fairies group of Camp Fire Girls were guests of The Hamlin Herald last Wednesday afternoon. The girls, with their leaders, were shown processes of publishing their Home Town Paper and other operations of the printing section. They were presented souvenir whistles by the publisher.

In the Blue Fairies group visiting The Herald were Linda Legan, Judy Jenkins, Glenda Hudspeth, Julia Robb, Jane Ferguson, Janice McCracken, Glenda Yocham, Sherlynn Witt, Joncie Harbert, Linda Helms, Martha Goolsby, Cynthia Stephens and Quita Kelly; leaders were Mrs. Joe Hudspeth, Mrs. Frank Legan and Mrs. Ernestine Stephens.

Mrs. G. C. Henry spent the past week visiting with her sisters, Lillian Baskin and Mrs. G. M. Fletcher, at Mullin.

## Simplified FHA Regulations May Aid Prospective Home Builder Get Started

Aspirations of prospective home builders in the Hamlin area and elsewhere to build new homes are given new hope through the prospect of more lenient FHA standards.

Capping more than 20 years of conflict and confusion, the Federal Housing Administration (FHA) is finally writing a new nation-wide "bible" on minimum home building requirements. It is expected to be completed by January 1, 1958.

Experts say the new standards may save the building industry millions of dollars and have a far-reaching effect on residential construction in the next decade.

For the home buyer, it may mean better houses at less money and far greater flexibility in experimenting with modern or "revolutionary" architectural techniques.

"If a man has a good idea for building a house, no matter how novel it may be, we will consider it under the new program," said William J. O'Connor, deputy director of the FHA's architectural standards division.

Under the old standards, he indicated, the FHA might have been automatically required to reject proposed innovations which it now plans at least to consider.

One expected result will be to allow builders a lot more leeway in originality of design while still maintaining high standards of quality and durability to protect the home buyer.

O'Connor said the FHA is working closely with the building industry on the new "bible." Written jointly by the FHA and a special advisory task force, the proposed new standards, if adopted, will entirely replace the FHA's old "five-foot bookshelf" comprising 23 separate volumes on the subject of minimum property standards (mps).

Following its creation under the National Housing Act of 1934, the FHA at one time had 54 different standards, each covering a few states or regional offices. These were eventually whittled down to the present 23.

Most of the proposed changes are so technical in nature as to be mere jargon to the average layman, but a few are reasonably understandable. These include:

A proposal to junk the old requirement that bedrooms must have a minimum area. Under the new set-up, instead of having four minimum size bedrooms, the builder could have two king size bedrooms and two small rooms or one master bedroom for husband

Dorcas Class Meets In W. L. Boyd Home For Special Dinner

Members of the Dorcas Sunday School Class of the First Baptist Church met in the home of Mrs. W. L. Boyd for their pre-Thanksgiving dinner.

Following an opening prayer led by Mrs. Etta Stephenson, a visitor from McCaulley, the group enjoyed the dinner.

The class group voted to fill a basket for the needy for the Thanksgiving season.

After a song and prayer led by Mrs. W. E. Rogers, a devotional was brought by Mrs. Connie O'Neal. Several members gave impromptu talks on Thanksgiving, and the closing prayer was offered by Mrs. M. P. May.

Attendants at the dinner included Mmes. Mary Avant, Mettie Albritton, Mattie Bruner, Zella Davis, Laura Brown, Mattie Dutson, Effie Herring, Lila Harbert, Lila Moore, Emma May, Pearl Milstead, Pearl Matthews, Jonnie Johnson, Connie O'Neal, and Lillie Rogers, members; and a visitor, Mrs. Etta Stephenson; and the hostess, Mrs. Annie Boyd.

W. V. Waltons Have Dinner for Relatives

A pre-Thanksgiving dinner was given in the home of Mr. and Mrs. W. V. Walton Sunday for a number of guests.

Attending the happy meeting and feast were W. L. Walton, Bille Walton, Mr. and Mrs. John E. Walton, Stan and Joye Ann of Lubbock, Mr. and Mrs. W. D. Stahl and Walton of Levelland, Mr. and Mrs. Riley Matchett and Nettie Bowen of Hamlin.

### HUBBARDS HAVE GUESTS.

Mrs. J. M. Hubbard and daughter had as their guests Sunday Mr. and Mrs. C. B. Hubbard of Ozona, Mr. and Mrs. J. A. Edington and daughter, Sue and Mr. and Mrs. W. C. McHann of Abilene.

and wife and three medium size rooms for the kids.

The new standards would also permit lighter concrete mixes that might save up to \$30 a house, and would allow the use of new insulating material (such as fiber glass) which could save up to \$50 per house.

On the other hand, they revised regulations call for an increase in the size of septic tanks from 500 to 750 gallons in some areas. An FHA spokesman says this might cost the builder an additional \$10 or so.

Good Grooming Is Friendship Club Topic

Mrs. Jimmy Simmons, home-making instructor at Hamlin High School, gave the program on "Good Grooming" when members of the Friendship Home Demonstration Club met Friday afternoon at the oil mill guest house.

Correct posture and selection of the most becoming colors were discussed, as was proper make-up.

Members present were Mmes. Jack Collins, John Hix, Fred Carpenter, S. E. Branscum and Gean Witt. Guests from the Neindia club were Mmes. James Brown, Elmer Joiner and Sam Hodges.

Zuna Camp Fire Girls Have Three Sessions

Members of the Zuna group of Camp Fire Girls have held three meetings during the month, according to the reporter for the group.

Rain did not spoil the day November 7 because the girls had fun passing beads. They had experiments in frontier craft and in creative arts presented a play.

At the November 14 meeting the girls enjoyed the refreshments served by Mrs. Ray Johnson. Then the girls made Christmas cards.

On November 21 Mrs. Weldon Johnson served refreshments to the Camp Fire Girls. The girls then made Christmas gifts which will be given in secret.

Alathean Class Meets With Mrs. Joe League For Monthly Social

A luncheon was served to members of the Alathean Sunday School Class of the First Baptist Church last Thursday when the group met for their monthly social in the home of Mrs. Joe League.

After a business session, Mrs. Tate May, the class teacher, directed a Bible study, the first of a series to be given this year.

Plans for the coming social in December were made. A money drive will be made from donations of class members and will be given to the Lottie Moon Christmas offering.

Those present for the gathering were Mmes. Tate May, B. O. Bell, L. J. Cunningham, Robert Fowler, John Howard Jr., L. A. Johnson, W. Wallace, Leslie Shelburne, Ned Moore, J. C. Turner and the hostess, Mrs. Joe League.

# State Capitol NEWS

By Vern Sanford, Manager,  
Texas Press Association.

Austin—Texas lawmakers are driving hard to forge a new tool or dealing with police powers, insofar as school segregation and integration problems are concerned.

Proposed as a "last resort" law to be used, presumably, in situations where threat of federally enforced integration is met by strong local opposition. It would allow the school board to shut down the school until "the earliest possible time when peace and order can be maintained without the use or occupation by military forces."

Governor Price Daniel's call has asked that the law provide 1) that state aid, accreditation, salaries, etc. not be affected by its closing; 2) that school boards may transfer local pupils; and 3) that the attorney general be authorized to assist local school districts in contesting integration suits in federal court.

Though legislative operating funds ran out over the week-end, both House and Senate decided against a "crash" program to enact the bill overnight. Strong opposition was not foreseen, however.

**Fiscal Hangover.**—Lawmakers who return for the next regular session in January, 1958, face a "morning after" atmosphere with a \$12,000,000 headache.

Las summer State Comptroller Robert S. Calvert predicted the state would end this two-year period with a \$6,000,000 deficit. His latest estimate doubles that figure.

Calvert revised his figures after voters this month approved a constitutional amendment upping state pension payments.

Legislators already are skating on the edge of financial embarrassment in their day-to-day operation. Fund for their salaries, expenses, etc. was down to about 45,000 when the first session ended. With costs running about 11,000 a day, they were due to start drawing this week on the governor's deficiency fund, earmarked for "calamities."

But the real calamity, as many legislators see it, comes year after year when they will have to find a way to glue the "busted" budget together again. Most agree gloomily that it means new taxes.

**No "Thrill," But.**—Legislators' comments on the laws passed during the first special session ranged from "monstrosity" to a shoulder shrug "better than nothing."

But they did pass—all five that the governor asked.

Spokesman for the governor admitted he wasn't exactly "thrilled" with the water-down water bill, but that he would accept it. In a public statement Governor Daniel commended the lawmakers for their accomplishments.

Briefly, the new laws do this: 1. Set up a water planning division to do research on Texas water resources and report to each regular session. No authority to draw up a state-wide plan was conferred, and the appropriation was cut from a recommended \$1,200,000 to \$900,000. Water Board was given

## KERRY DRAKE

### Annie Oakley to Be Stock Show Feature

Gail Davis, television's Annie Oakley, will be featured in rodeo performances at the 1958 Southwestern Exposition and Fat Stock Show at Fort Worth January 24 through February 2.

Without an administrative head the department cannot conduct even routine business; nor can it pay its employees. Members of the Texas Insurance Board asked Attorney General Will Wilson for guidance.

Under the constitution the Senate has the authority to pass on all appointments made by the governor to constitutional offices.

It does not, however, pass on the appointments of various state boards within their departments.

Senate approved the governor's appointments to the board, but turned thumbs down on Harrison.

A former assistant state auditor, Harrison had been serving in the

\$20,000-a-year post since early last summer.

Board members asked Wilson's opinion on (1) Does the Senate have the constitutional authority to pass on a board appointment; and (2) if so, what will we do until we can find a new commissioner?

"No Urgency."—Insurance Department is being beset by the Senate from another quarter as the investigation into a delayed report continues.

Senate committee questioned two department officials on why three months elapsed between receipt of an unfavorable report on Preferred Life of Dallas and department action on the matter.

Paul D. Connor, assistant commissioner, said he saw "no urgency" in the report since it did not involve insolvency. E. B. Kelley, chief examiner, said he did not think there was "anything significant" about it.

Earlier, the man who made the examination said he had found evidence of illegal stock manipulation involving some \$994,000.

**Cotton Rained Out.**—Untimely rains probably have cost Texas cotton farmers some \$100,000,000, says Agriculture Commissioner John White.

Rain kept harvesters out of the fields, said White, and greatly cut the quality of the cotton still on the stalks. "It's a real economic blow to many farmers who had prospects of the first good cotton crop in several years," White observed.

**Short Snows.**—Senator William T. Moore of Bryan is president pro tempore of the Senate for the second called session. He succeeds Senator Searcy Bracewell of Houston. . . . One of the things for which Texans can be thankful this year is that there will be only one Thanksgiving. Governor Daniel proclaimed the Texas holiday for November 28, same as the federal holiday. . . . Governor Daniel has asked President Eisenhower for emergency federal aid for Jefferson, Bell, Orange and Fayette Counties, recently hit by floods and tornadoes. . . . A Senate passed bill clears the way for getting land for a Texas Employment Commission building just north of the capitol. Bill would increase the site buying appropriation from \$350,000 to \$1,100,000. Probable location now is occupied by a Lutheran Church.

**PRACTICAL ADVICE.**  
A farmer was losing his temper trying to drive two mules into a field when the minister came by. "Say, Reverend," the farmer said, "you're just the man I want to see. Tell me, how did Noah get these into the ark?"

## Roger W. Babson Discusses New Home And Fashion Trends as Money Holds

The automobile is not only revolutionizing highways, retailing and financing, but also the style of buildings and homes, observes Roger W. Babson, analyst and economist, in his weekly release to The Herald. He continues:

Simple arithmetic will prove that with narrow streets in the older cities, one of three things will happen: (1) The 50-year-old brick buildings will be torn down and replaced by modern one-story buildings; or (2) the streets will be widened; or (3) all stores will be open evenings. New shopping centers are otherwise inevitable.

Another example of simple mathematics: People can borrow only so much money. This limit is fast being reached. If families are to have one or two larger automobiles, these families must be satisfied with smaller and fewer rooms in their homes. As autos become larger and more expensive, homes must become smaller and less expensive. I therefore forecast that many of my readers will turn their present houses into apartments.

All new homes will not have garages; but all will have enough land so that the family cars can be kept off the streets. The new style of architecture will be based on the Old Cape Cod house of one and one-half stories, or else people will live in duplex or cooperative apartments. People gave up their "horse and buggy" when they bought an automobile. They will learn to give up their present style of homes. Putting more money into the automobile may result in putting less money into the home. This will especially be true if we are facing either war or disarmament.

The future home will have no "dining room," and the orthodox "parlor" is definitely doomed. Weddings, funerals and receptions will be held outside the home in places which have proper parking space. There will be one large "living room" in which the family will live, cook and eat. There will be no "kitchen." With frozen foods and infra-red cooking, only a few minutes will be needed to prepare a meal. From such cooking there will be no mess or odor.

Every house will, however, have two bathrooms—one for the parents, who will sleep on the first floor; one for the children, who will sleep on the second floor. Typical bathtubs of the present day will be seen only in museums. Bedrooms will be much smaller, comparing more with the staterooms on ocean liners or on luxury trains. Heating and air conditioning will be much cheaper and more common. Both hot and cold air will come into the houses through underground pipes as gas and water now come. Electricity will be very much cheaper. "Bottled gas" will be used more.

Clothes can be much cheaper. Cloth will no longer be woven as cloth is today. Cloth will be made like paper cellophane. This unwoven new "synthetic cloth" will come out of a machine as finished dresses for the women and children, or as finished suits for the men. Some women readers will say, "Impossible, women will insist on wearing different dresses and hats." These, of course, can differ in color, but women will then be satisfied with standard clothes. The automobile will standardize clothing. There will be a few different makes of clothes at different price ranges. Auto dealers and gas stations may carry clothing.

Yes, revolutionary changes to be caused by the automobile have just commenced. Far greater changes are ahead. As "drive-in theaters" are following the indoor theaters so "drive-in schools" and "drive-in churches" will follow. Banks are now taking many of their deposits direct from customers who drive up in automobiles.

## Capital Additions to Homes Affect Taxes

Most folks never keep a record of how much money they invest in capital additions to their home, reminds Tax Man Sam in a release to The Herald. They plan on spending their life in their home.

The way folks move around nowadays, though, makes it profitable for most of them to keep an exact record of how much their house and everything they add to it cost them. This includes the lawn, the back room and the tool shed they added to the garage.

If they have to move, they are always able to figure out if they have a gain or a loss on their house. Nobody likes to pay tax simply because he didn't keep a record and doesn't know how much something cost him.

Prayer is not eloquence but earnestness.—Hannah Moore.

## Freight Carloadings For Santa Fe Decline

Freight carloadings for the Santa Fe Railway for the week ending November 16, 1957, were 23,852 compared with 25,286 cars for the same week in 1956, reflecting a continuing decline from the totals of a year ago. Cars received from connections totaled 11,153 compared with 12,901 for the same week in 1957.

Total cars moved were 35,007 compared with 38,187 for the same week in 1956. Santa Fe handled a total of 36,544 cars in the preceding week of this year.

The Herald has carbon paper.

# Let's Talk Turkey

**M**AYBE it's no coincidence that we use the Turkey as a symbol of Thanksgiving and also as part of a colloquial phrase meaning to discuss realities in a straightforward manner . . . since people who face facts and act accordingly usually have more for which to be thankful. So . . . let's "talk turkey" . . . let's be frank . . . even blunt . . . on the subject of shopping at home.

And let's begin by stating a point about which there can be no argument . . . that more trade volume in a community brings about more growth, more prosperity, better living for that community's citizens.

**That is Straight Fact No. 1. Now let's move on to Straight Fact No. 2: More prosperity . . . more economic activity . . . in a community means better jobs and business, higher property values, better schools, stronger churches, more neighbors better able to help carry the community expense and work load.**

For Straight Fact No. 3, let's go negative: The dollar we spend in some other city means \$3 or \$4 or more dollars of trade volume lost to our community as it stops circulating here . . . and the social and material benefits this lost trade would buy for us go instead to somebody else . . . who lives where our money is spent.

**It Pays to Buy Where You Live!**

Of all the business establishments in the world—only those in Hamlin are sincerely interested in the future of Hamlin and in the future of YOU who live here . . .

**talk turkey.** To talk in a frank or blunt way; to present unwelcome aspects of something plainly and with frank directness.—Webster's New International Dictionary.

# TRUE THANKSGIVING

## Is in the Hearts of People

In the spirit of this Thanksgiving season the local business firms whose names are listed below join with this newspaper in thanking the citizens of this community for their continued patronage and support. This loyalty to your home town and its business firms mean continued prosperity for us all and enlivens the prospect of future growth.

We give thanks for this pride of our home town, without which there would be no small communities throughout this land. In the be-

ginning it was this pride in community life, the schools and churches and business houses, that caused the home towns of America to grow. Such abundance and freedom of spirit of movement as pictured above is unknown today in a great portion of the world. We are truly grateful that we enjoy this blessing and wish it for all peoples. As long as it exists, towns like ours will continue to be wonderful places in which to live. We join together to give thanks for this pride and the abundance which it has produced.

## Early Mailing of Christmas Mail to Assure Delivery

Postmaster Perry Sparks said this week, "Early mailing of all Christmas cards and gifts in the sincerest single factor in getting all of the mail delivered before Christmas."

The postmaster urged special care in preparing gift packages for the mails. "Make sure that all addresses are legible and complete."

"If you have any articles of unusual size or bulk, better check with the post office before attempting to mail them," the postmaster warns. The limits on size and weight of packages vary, depending on where you mail your package.

When wrapping gifts for mailing it is always better to use corrugated cartons, especially where there are a number of various sized objects in the shipment. Use plenty of wadded tissue

**DEFENDING SELF.**  
Diner—"Waiter, this soup is cold. Bring me some that's hot." Waiter—"What do you want me to do—burn my thumb?"

I like work; it fascinates me. I can sit and look at it for hours. I love to keep it by me, and the idea of getting rid of it nearly breaks my heart.—Jerome K. Jerome.

or newspaper for extra protection against shock, and securely wrap each package or carton in heavy paper, and then tie it with strong cord. Be sure to include an extra label with your return address and the recipient's address inside the carton or package before it is wrapped.

Another good idea is to place a piece of transparent cellophane tape over the address portion of the label on your package to prevent defacing in transit, and always make sure to include the recipient's full name, street address, city, zone and state.

"Remember these three rules," Sparks said: "Wrap securely, address correctly and mail early."

## Nazarene Church Plans Celebration Of Anniversary

Looking toward the 1958 golden anniversary year of the Church of the Nazarene, Dr. S. T. Ludwig, general church secretary, has outlined a series of simultaneous events in which every church of the denomination will participate.

Pastors of all local Nazarene churches now are planning for individual or union watch night services on December 31, which will usher in the jubilee year, declares Rev. Bill Hanna, pastor of the Hamlin Church of the Nazarene.

Other simultaneous services in Nazarene churches around the world will include:

January 5 — Worship service marking the start of the anniversary year.

April 6 — Easter offering for world missions. Goal, \$1,000,000.

October 12 — Fiftieth anniversary Sunday services.

November 23 — Thanksgiving offering for world missions. Goal, \$1,000,000.

Official birthday of the Church of the Nazarene was October 13, 1908, at Pilot Point, Texas, when a group of smaller churches in the East, West and South formally united.

Sharing a belief in the Wesleyan doctrine of entire sanctification or heart purity, the original 228 churches and 10,000 members have increased in 50 years to 4,500 churches with approximately 300,000 members.

The local Church of the Nazarene plans full cooperation with the denomination in all fiftieth anniversary activities, Rev. Hanna declares.

### Resolutions May Aid Income Tax Returns

Now is the time for a good solid New Year's resolution, declares Tax Man Sam, in a release to The Herald. First resolution: I will keep good tax records this year to enable me to pay less income tax. Second resolution: I will carefully read the tax instructions this year to avoid mistakes that will cost me. Third resolution: I will file my 1957 return as soon as possible since 60 per cent of North Texas taxpayers receive a refund, my chances of a refund are good. Fourth resolution: I will avoid tax penalties by filing my tax as required by the instructions.

Taxpayers making and keeping these resolutions will be happier and wealthier taxpayers next year.

## Hamlin Junior High School Gridders Lead District in Scoring

Hamlin Junior High School's Mighty Mice football team not only led the five-team junior high loop with eight victories out of that many games, but also led the scoring parade for the season, a tabulation of the scores reveals.

Comparative scores for the five member teams follow:

Hamlin 239, Opponents 71.  
Albany 194, Opponents 78.  
Anson 153, Opponents 155.  
Rotan 105, Opponents 202.  
Merkel 57, Opponents 242.

Total...748

748

Most of Hamlin's games were high scoring affairs. Only two were close. The Mighty Mice eked out a 7 to 6 victory over Merkel in their second game, and won over Albany 6 to 0 in the sixth tilt. Complete scoring of games of the season follows:

Hamlin 19, Albany 6.  
Hamlin 7, Merkel 6.  
Hamlin 38, Anson 18.  
Hamlin 27, Rotan 6.  
Hamlin 35, Jim Ned 20.  
Hamlin 6, Albany 0.  
Hamlin 54, Merkel 0.  
Hamlin 41, Rotan 14.  
Hamlin 52, Anson 21.

## District Champion Seymour Defeats Perryton 13 to 6

Seymour High School Panthers, champions of District 4-AA of which the Hamlin Pied Pipers are members, advanced to the second round of the Class AA play-off Friday afternoon at Childress when they blasted the Perryton Rangers 13 to 6. The Panthers, by virtue of their bi-district victory, will meet Lockney tomorrow (Friday) evening at 7:30 o'clock on the Snyder High School grid.

Seymour showed its power as soon as the game got underway when Larry Martin made a 90-yard gallop for the first touchdown on the first play from scrimmage.

The extra point was missed.

From then on the contest was a nip-and-tuck affair as a strong Perryton line, backed up by Don Seymour in the backfield, slugged back to prove they were not to be run over.

In the final three minutes of play Martin again broke through the Perryton defense for a 10-yard gain and a second touchdown for the Panthers. Bill Moss kicked the extra point.

Then, after Seymour kicked off to the Rangers, Perryton Quarterback threw a 36-yard pass to End Thomas Carter, who went the remaining 20 yards for a touchdown. The extra point was blocked.

About 3,000 chilled fans, including a handful from Hamlin, witnessed the engagement in a chilly and damp atmosphere.

Perryton made nine first downs to only six for Seymour. However, the Panthers held a 227 to 121 yard margin in gains no the ground. Seymour complete one of three passes for 49 yards, while Perryton connected with three of eight aerials for gains of 83 yards. Seymour intercepted three of Perryton's passes.

### NEW POINT OF VIEW.

A Red professor, lecturing on insects at a satellite university, was bent on indoctrinating his students in Marxian methods of thinking.

"In my right hand," he began, "I have a flea. I now order the flea to jump over to my left hand. As you see, the flea obeys me."

"Now," he continued, "I remove the legs of the flea and order it to jump again. You will note that the flea does not jump. This, gentlemen, proves scientifically that a flea whose legs are removed becomes deaf."

Let us be silent that we may hear the whisper of God.—Emerson.

## Last Football Games On Junior High Loop Schedule Played

Two more football games were played last week by four teams of the Junior High School loop of the district, but they did not affect Hamlin's command of the league.

"Now," he continued, "I remove the legs of the flea and order it to jump again. You will note that the flea does not jump. This, gentlemen, proves scientifically that a flea whose legs are removed becomes deaf."

Final standings of the league, after last week's games, stood like this:

Teams	P. W. L. T. Pct.
Hamlin	8 8 0 1 1000
Albany	8 4 3 1 .560
Anson	8 3 3 2 .500
Rotan	8 2 4 2 .375
Merkel	8 0 7 1 .062

Results Last Tuesday.  
Anson 34, Merkel 19.  
Albany 68, Rotan 0.

**AUTO ACCIDENTS KILL!**  
Auto accidents kill more persons under 65 years of age than any other type of accident, the National Safety Council says.

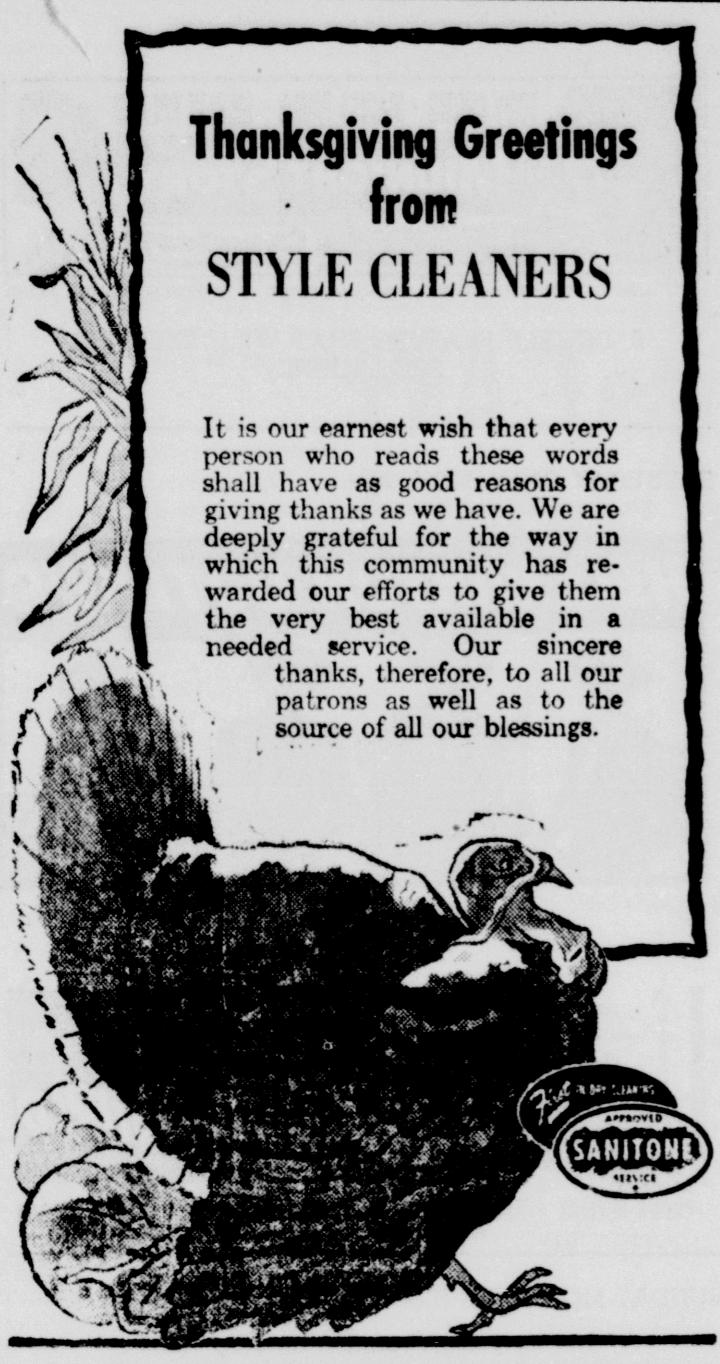

What we most need is the prayer of fervent desire for growth in grace, expressed in patience, love, meekness and good deeds.—Mary Baker Eddy.

## Thanksgiving Greetings from STYLE CLEANERS

It is our earnest wish that every person who reads these words shall have as good reasons for giving thanks as we have. We are deeply grateful for the way in which this community has rewarded our efforts to give them the very best available in a needed service. Our sincere thanks, therefore, to all our patrons as well as to the source of all our blessings.

### Resolutions May Aid Income Tax Returns

Now is the time for a good solid New Year's resolution, declares Tax Man Sam, in a release to The Herald. First resolution: I will keep good tax records this year to enable me to pay less income tax. Second resolution: I will carefully read the tax instructions this year to avoid mistakes that will cost me. Third resolution: I will file my 1957 return as soon as possible since 60 per cent of North Texas taxpayers receive a refund, my chances of a refund are good. Fourth resolution: I will avoid tax penalties by filing my tax as required by the instructions.

Taxpayers making and keeping these resolutions will be happier and wealthier taxpayers next year.

## CLOSED Thursday, November 28 Thanksgiving Day

From its earliest beginnings Thanksgiving has been a family occasion, the gatherings of those we love, a yearly meeting to give thanks to Him who has given us so much.

We will be closed all day Thursday, November 28, in observance of Thanksgiving Day. Our patrons will please arrange their banking business with this in mind.

## Linda Williams Finally Gets Through To Elvis Presley for Role in Picture

Teen-age girls have employed every trick in the book to meet their idol, Elvis Presley—but it's a rarity when one of the stunts succeeds.

In Detroit, a girl went on a "sit down" strike on the floor in front of his back-stage dressing room.

### Continued Gain in City's Sunday School Attendance Shown

For the third Sunday in a row attendance at the city's Sunday Schools showed a gain following the five-Sunday drops registered during the flu epidemic, according to tabulations made by The Herald. The 1,227 total for Sunday was 25 more than the previous week, but was 32 below the year ago total.

Attendance figures, by churches, for November 24, November 17 and a year ago follow:

	Nov.	Nov.	Year
Churches—	24	17	Aug
First Baptist.....	404	363	415

Assembly of God.....	28	32	44
<b>Totals.....</b>	<b>1227</b>	<b>1202</b>	<b>1259</b>

### Fried Chicken May Be Varied in Method

Fried chicken does not have to be served in just one way. For increased appetite and menu appeal, vary your method of frying by trying French fried, oven fried or sauteed chicken.

Another crisp and tender dish results when you make pretzel batter chicken. Dip the disjointed frying chicken in beaten eggs. Then dip it in finely crushed pretzels. Fry slowly in hot fat. Then sprinkle with freshly grated black pepper during the frying. Additional salt is not required, since the pretzels are well salted.
